

**PNACitizen Rebuilding America's senses  
Daniel Abrahamson presentation  
on April 14<sup>th</sup> & 15<sup>th</sup>, 2007**

**PNAC presents :  
A Project for a New American Citizen  
Rebuilding America's senses  
Exposing false-flag terrorism  
To prevent a new 9/11**

<http://video.google.com/videoplay?docid=1798234666930687315&ei=PPPYsq-3FNyf-AbsnOmwCg&q=Rebuilding+America%27s+Senses#>

---

0 min 00s Good morning, **welcome**, this is the church of truth this morning, the Sunday morning, so you know, there are many ways to worship, there are many ways to honor humanity on god, this is one way to do it. So you should be commanded to get up bed earlier on Sunday morning, you are infore a rare tree today folks.

I think one of the things the conference really spells out is : what are you for doing today?, as we know, I mean, they are our hope, we have to pass the torch, if you excuse the expression, to our **young people** today. They are the ones, that need to keep this going, and of course you know, we need our thanks to our forefathers for **truth movements**, or our fore mothers in the truth movement, who have gathered us to this point. Without them, there is a good chance, we will not even be allowed to meet here at UT today, to have the discussion, that we are going to hear all day today.

1 min 00s So, let's honor the people, who gather us here, let's honor the people, who are going to take us home. One of the people, that I speak off, is one of the generation X, as they re called, sometimes generation Y or Z. Myself I am from the sonic boomer generation, I'm not a baby boomer and I am not a generation X, one of this people, is **Daniel Abrahamson** and his false flags news.

Daniel really gives me hope, that we are going to win this thing, he is just an exhaustive comprehensive researcher, he works extremely hard, he goes to college, he lives his life, he is a musician and an artist, a researcher, runs a website, does a radio programme on the one you know JCM radio network Monday night at 7 o'clock here central time.

2 min 00s He is a free launcher journalist, researcher, musician, college student, JCM radio, he is the creator of **falseflagsnews.com**, and multifaceted website, addressing issues related to false flag terrorism and the new world order in general.

I am constantly blowing away, just when you think, you 've heard it all, you ve read it all, you listen to Daniel Abrahamson, and you know that there is something to learn.

So without further overdue, I 'd like to call my friend, my colleague, your speaker this morning Daniel Abrahamson, pull it together !

---

Thank you for the warm introduction.

See how it is going out of there, do you think we can see the screen on there, guys, oh I can touch touch this, alright cool.

So, thank you everybody for coming out this morning, it was difficult for me too to wake up as well, so heu I definitely appreciated, I appreciated the martial, thank you very much.

Alright, so I would speak more, I want to give you an introduction story, I wish I have a time to flash out things more, but there are too much to talk about right now.

3 min 00s

You have got good microphones levels ? I think we have to take this cellphone out now, sorry Bradley, after our lesson special start, but I just want to start right now by talking, about what I see as the « **global breakdown** ».

I think a lot of the time, we have done as a movement, **we talked about Sept 11<sup>th</sup>**. What happened ? Was it a control demolition ? People talk about the pentagon, people talk about the hijackers, trained in USA airforce base, people talk about insider truck trays, people talk about the thousands of different points from where we looked at it suggests, now what the **government is telling us is a complete lie**.

What is appearing is the pattern, a **pattern of terrorism, created by government agencies** to mind control you, to really mind control the world, to make you think, that there is a threat, a threat of the other, and if we don't fight this threat, if we don't invade, if we don't create a police state, if we don't take over the world's oil, we will all perish.

4 min 00s

**So, I think, we have done a real good job in flashing out the research points, which show how Set 11<sup>th</sup> happens, but I think we need to look a little bit more to why it happens, and really where we are going from here.**

Constantly, we are saying, there is a threat of another terror attack, they may hit us again. **Cheney** and its faction are talking about nuclear war against Iran. Why are they doing that ? Why will cause these men, who basically have the goose gold right now ? And one of the most profane question, that I am asked by people : who are not into this stuff is at least if we are having all this, if there is really a **Bildelberg** group, if there is really a **CFR**, **if they really have a complete command control over the system, why blow up ?, why kill the golden goose ?**

I mean, they have their luck right now, what will compeal these men to risk basically nuclear annihilation, and that is, what I am saying, false flags terrorism mind disease, is maybe a measure of **desesperation**, that is not a show of strength, that is a show of US empire on the brink of collapse, a US economy, that is collapsing and the **twilight of US hegemony**, the twilight of British hegemony, the breakdown of the anglo-american finance system, that has run the world for hundred of years, the Federal reserve is in big trouble, the bank of England is in big trouble, the derivatives are in big troubles, and our military is in enormous trouble, so I am hoping, that I will flash out all these topics after it now.

5 min 25s

The big question is : **how false flags terrorism happen ?**

We've done a great job with that, I am not saying stop the research, I am saying, why does it happen, in some specific case on 911. There are some reasons, I will flash out today, I believe there is a **stalled agenda**. They haven't done very well with the free trade of the american agreement.

They are not doing a tremendous job in implementing **KAFTA**. They wanted to have the new world order, the global government by the year 2000. **They are behind schedule**. There is an economic crisis right now with the dollar, that is in collapse. So bad, that the government want to proper it up, and of course we are seeing **NATO** weakness, with the **emergence of Russia and China** dominant players in the world scene, world's energy scene, world's currencies scene, and certainly the military and space weaponry scene.

Just to flash to a couple of more things, and I promise, that I will flash them out fully, they want the Middle East and Central Asian hydrocarbons, that means liquefying natural gas and oil. It's true it is a **war for oil**. It is not because of peak oil, but this is war for oil and natural gas. That is also a **war for Israel**, and that is not anti-semantic to talk about this.

We'd better to stand up to the intimidation of groups, like the **ADL**. The media says, that we talk about the fact, that Israel is directing large parts of American foreign policy, that is somehow **anti-semantic**, that is **anti-jewish** to talk about it, **that is a lie**. That is a manipulation technique to not talk about, who is really influencing our policy, which is a lot of members of the **Likud** party in Israel, and so also a breakdown of the **Federal reserve**, and the **debt of the industrial complex**, which ties with the \$ breakdown, and the death of the petro-dollar, which I'm going to flash out.

7 min 00s

They try to push the **North American Union**, calling it the security and prosperity agreement, that is going to make you secure, free, and prosperous, and use this Orwellian language to push basically, that this solution of the United States the breakdown of our borders, drug moving to, human traffic moving through, guns moving through, look I am a second member person, but I think that we don't want to, you know the possibility of making real nuclear weapons moving, and what if there is a real terrorist group, you know not having water security means, that there are going to have more drug flows, more human traffickers, some will go to the slave sex labor of Danko for which I want to talk about.

Spike in government **drug** dealing, the **police state** and the **prison-industrial complex**, we need to talk about drugs, they play both in, these ship the drugs in, and they will have a wag and hot prison, make you work for 70 cents an hour, and that is a war, being staggled to all the work class to the drug wars, and most importantly, it is the **end game against Russia and China**, I think we'd better see that 911 is the beginning, not in the middle East war, although it is, but really an end game against Russia and China. We'd better see this complex coming up, this is **World World III** coming together, I want to show you, how the chess pieces are coming together, how the chess piece are going to play out new technologies.

8 min 10s

**You want to know who is behind 911 ?**, I will show you the factions, a lot of them are related to the **space war faction** of this country, and those who are manipulating the genetic engineering, nanotechnology, robotics, artificial intelligence, cognitive science, and merging these together to create, what they call the **hive mind system**, their words not mine.

Hive mind system brain implant in your head, this is not conspiracy, I have the documents **National Science fondation**, when they talked about that, and of course I don't want to give you fear.

I mean this movement has enough **fear** to last us one thousand years. Fear mongering is a dying thing in this movement. I will try to offer solution, because I don't want to tell you we are screwed.

What I am going to, we may end up and just give up, right ? Ok, so I will try to give you some good solutions.

9 min 00s

It is getting dry here, I am going to take a couple of drinks of water, it happens, you will have to forgive me. Look I just want now to speak about the present situation right now, I am going to come into all that I promise, but we are going to talk about, where we are right now.

-----  
-----

We often speak about **Irak**, and we say : “well, Irak is a disaster, they really bundled, but I think, we should just flashed out, where we are with Irak, and how it relies with **Iran**.

What is amazing to me is the vast majority of the Americans have now turned against the war in Irak. I don't think necessarily this means that most Americans are **becoming anti-war, they are anti-losing**. That is the point scared to make, they are not against the slaughter of the 700 000 people, the length is saying that is 750 000 – that was almost one year ago.

British numbers are saying about 600 000, and of course, that is not counting the depleted uranium,

which has created a radioactive Hiroshima in that country, with a half life of billion of years increasing cancers, leucemia, which will come far after our forces will leave who knows ? Maybe all the region will be just wiped out and our soldiers come back with that, but I think the American people are against losing. I think, if we were winning this war, they will say : “wah wah”, supporting the genocide, the same way, that some people are saying : “shunk them all, let's shunk them all these arabs”. So I don't think, it is a moral compunction, but I think, it is interesting people have turned against it.

10 min  
20s What is happening right now ? These are building 13 permanent military bases just for the global **war against terror**, the long war. It's the long war, but what are they doing ? These are going to be used as launch base into Syria, into Libanon, into Iran, into Algeria, Etiopia, Somalia, Turkey, wherever they need to go next. The neo-conservatives have a list of 180 countries, they think about all of them. You know, we talked a lot about Iran, you know what interest them ? **Kasakhstan**, I'll talk about that?

Another thing, the **Irak surge**, they say, it is going to be a surge of 20 000 troops, it is actually being 40 to 50 000s, mainstream, and they are going to be here for years. Now they say well, we said that we will let them going in the summer and in general case, it's the same, in fact we will need them past the summer, and we are going actually to put 13 000 more in there. So the surge is around 50 000, don't be deceived by the numbers, the number always lies, it's always even worse of what they are showing, it's bad enough, you know.

11 min  
13s The Iraqi exports for oil have been completely shut down, and that's artificial scarcity to spike oil prices. **They want a 100\$ a barril of oil**, I am going to flash that out. They are **balkanizing** the region, via an **engineered civil war**, Jack X talked about this point.

**P2OG**, if we've a look into this, we need to look into a program, P2OG, I encourage everyone out of there, people who are going to watch that, are new to, with 911 conspiracies are a joke, I empower you P2OG with the government, says we want to stimulate reactions in the muslim world, create false flags terror attacks. No they don't say false flags, they say we want to create real terrorism, and have real terrorist groups to respond with. They are trying to create a balkanized region in Irak by having wars between sunnis, Shiites and Kurds and some of other minorities religious, but here are the main, etc.

12 min 5s So, it was the incidents with the **British SAS**, they dressed up as a bench of arab bombers, and try to bomb a mosque, and they got broken out in a prison after that, not a lot of press on it, but it did happen, and you can find reports on this, if you go on google. So we talk about Shiites and Sunnis have been at war for ever, this is just really a civil war, and this is an engineered civil war and they want to partition Irak into 3 parts, and you see : was this always the plan ?

Other partition into 3 parts, because it is not going well, because they bundled it, right ? Look into the map, and probably touch down this little bit after it ? This is **Bernard Lewis** , he was one of the neo-cons main mastermind, and he said the goal is « **to divide, conquer, and re-draw** ».

And they are breaking, as you can see, we can bring out of there Irak into 3 parts, breaking Iran into different parts, and having an expanded Syria, and break Syria a little bit, an expanded Jordan, we are talking about breaking down Afghanistan into little bits, like Pachtounistan, the same with a break on Pakistan and have a Baluchstan region as well. How do you do this ?

13 min 5s Let's do another map, that is another neo-con architect, his name is **Ralph Peters** and he says the secret to History, **History dirty little secret is « ethnic cleansing works »**.

Those are his words, « ethnic cleansing works », openly the clearing. In this map, you see a Sunni Irak, an Arab Shiit state, a free Kurdistan, which they are going to chop off from Turkey there. This

is their plan, it has been always their plan, and this is not a result of a civil war, this is why the civil war happens. They want sectarian violence, thus Sunnis, Shiites don't unite against the evil unified occupying force, which are murdering men and women and children.

This is a criminal occupation. I mean, we support the troops, I guess we don't want them to die. I don't support this war. I don't even think, we can comprehend, how many people have died there. What's 700 000 lives ?

I mean, this is statistic. I can't wear in my mind around it, I don't think any of us can. We cry the tragedy one person, I mean the kind of slaughter, that has been done to these people, because they sit on oil resources, it's just behind comprehension, and this is the plan right now, balkanize.

14 min 5s

So there is a problem now, the civil war has **gone out of control**. They don't have total control, They think, we can engineer this civil war, and these arabs will be on each other throats, but now, they don't know on which side to play, they armed the Shiites with the **Salvador** option, and now **Cheney** says : wait a minute, maybe we have done a mistake, now we are going to arm the sunnis, right, now they are going with the Saudia Arabian coalition, arming rebel groups in Lebanon, and they are saying, that is going to be our way to do it now, we are arming sunnis in Syria as well.

The problem is by doing this, you know by playing both sides, even exacerbating it, and I think, it is out of control for them. I don't think these guys are masterminds.

I just think neo-cons are bottlers. I think this banning the Iraki army, by the **CPA problem** was a disastrous mistake.

Let's be honest you put 200 or 300 000 guys, who were unemployed, who have been walking on the streets of Irak, there is your resistance. I mean you want to know, where the resistance is coming from, it is mostly sunni, that's cause of the CPA disbanded the army.

So I don't think these guys are masterminds. They either are incompetents, they are evil, I take their means, that any points, I don't think, they are overwhelmingly competent. The supply line in Bagdad had been cut right now. The surge has no cut troops deaths. I would go more into that.

15 min  
18s

In **Afghanistan**, the Taliban resurgence cannot be stopped, even with NATO troops coming there. That is not working either and many of the **CIA war lords**, who control the country and the country's opium crops, and that is to say the CIA's **opium crops** are in danger of losing power right now. And **Hamid Karzai** has only 5% domain is Kaboul. That means, he doesn't run anything, he doesn't run Afghanistan any more, that I run Austin Texas, because I am on a stage here, you know, and that is what it is it is a stage. It is stage man, the all world is control punctually.

Additionally, touch on this one the other day, in **Lebanon Israel has been humiliated in Lebanon**. People don't realize that. They used **white phosphorous bombs** on men, women, and children's, they used **cluster bombs**, these things don't explode for a while. And, so you can walk along southern Lebanon, I mean, the region is inhabitable now, and they say it was a war on **Hezbollah**. No, no, no, no it's a war on Lebanon, it is a **war on Arabian independence**. It is a war to destroy any countries. And sometimes, it is not even that, the country posed a threat, it is more a genocidal, a racial agenda on a part of a radical israelis, people in the **Kadima**, the Likud party. The people, who believed that, Arabs have not right to exist, that they are lower forms of life, that these people deserve to be killed.

And of course, what is the neo-cons – Pentagone solution to hold all this ? To all this military disastrous ?

“**Double down**”, I say they 're like generic game gamblers. You've seen it like in the movies, when the guy just keeps losing, and he says double down, double down,..., double down. He is like the generic gamblers, who can't go away from the casino table.

So what do they do ?

16 min  
50s

**Irak surge jump into Iran**. And if you don't think, that these troops haven't been put there

near the border for Iran. I've got another thing coming for you, some of them are in Bagdad not all of them, but a lot go along the border. This is the preparation for ground forces to occupy Iran. They think that they can really invade, but maybe after we bomb it, we can occupy the oil region in Kurgistan, so my thesis right now, peple say :

Are we going to have war with Iran ? I mean, I walk around, and I say to people do you think that we are going to have war with Iran, I am interested, what do you think ? I am even not just doing this to myself, **we are at war with Iran right now**.

Colonel Sam Gardiner, who was a top air force general went on CNN, and said there have been operations by intelligence agencies inside Iran since 2006 – no joke.

Seymour Hersh, the new yorker magazine said the CIA, Pentagon, Mossad and MI6 are funding and training terrorist campaigns, who are the terrorists running around. This is the Moudjahidin, who are on the state department terrorism watch list, on the western Iraki border. They have encouraged **PKK** and Kurdistan Free life party in southern **Turkey**, and northern Irak, their presence is growing so fast, the Turks are now shelling North of Irak, and you go on google, and you type : “Turks shell Northern Irak”. That's how bad the plan is getting, even Turkey is feeling strained by how much of growth it has been in the PKK.

18 min  
13s They are training **Baluchi** tribesmen from East Pakistan, hey remember that map, I 've shown you, and you saw a free Baluchistan, that's the deal, it has been cut : you help us take over Iran, and we will slice off bits of Pakistan, how does that sound ? Divide, conquer, balkanize. That is how they do at the bribed people. They have **Azeri** rebels in North of Iran, who have been bribed off, and of course the biggest population, who has been bribed off, is the arab population of **Khuzestan**. What's Khuzestan, or the Arabian province ?

That is, where the minority arab population is in Iran, it is also, where 90% of the oil wealth is located, 90% of the oil fields are in a small south West portion of Iran, known as Khuzestan, right on Persian gulf right there, and that is where the oil fields are. So they need to rally all this people, it is very convenient for the neo-cons. There is a large arab minority population there, and there have been a number of bus, pipelines bombings there, I want to talk about this. So, it is not the brink of this sort of covert war, because it is more Iran conscience right ? Where we have take conscience to murder women and children.

19 min  
15s We are on the **brink of a nuclear war**. Now, what of the thing, which is bothering me is, I have to, you know I spent all my days researching and I have to go my line and see them say : “2 carrier groups in the Gulf”.

There are 2 **carrier groups in the Gulf**, see the number lies. I will tell you a little bit of the truth. It is always worse, almost, it is 5 carrier groups. Go on line and research, I encourage everyone of you there. Maybe my information is wrong, it is not but, go on websites, I mean, I encourage you, go on the Nemetz's website, but the ones, which are not talked by, are the Boxer and the Bataan strike group. Go on their own websites. In fact you go on the USS Boxer website, a day ago, picture from just a few days ago, we are on the Persian gulf, they have got the soldiers their dealing stuff, the submarines. This is great you know, but the media doesn't cover it, but their own website does.

So what's going on ? So we have the USS Nemitz, the USS Stennis, the Boxer, the Bataan strike group and the French carrier group, that's 5 by my number. Although it does never match with mine.

20 min  
13s There are hundreds of attack planes, and helicopters, missiles, submarines, minesweepers. **The attack** according to Colin **Gordon** is going to be launch from Bulgaria and Romania, where the B2 bombers will refuel and drop their nuclear munitions.

Now when the troops are arriving ? I've just gone on line to their own websites, and their

comment is earlier June, so when the attacks are coming ? So Colin **Gordon** is saying the last days before the attack the troops will arrive in Bulgaria. Ok so let's look to May-June. And if it doesn't happen, don't come to me and say : “ you say it was going to happen and it didn't happen”, but I mean yes, we are living on the brink of the apocalypse right now. We are surfing on the edge of the apocalypse. That is not a joke. Look, I can be dead serious, Colin **Gordon** represents a faction within the military, that doesn't want it to happen. He is trying to warn us. We have to take him really seriously. There are possible flyovers from the arab United Arab Emirates and Qatar, these are the 2 countries on the gulf cooperation council, that have been bribed off by Israel and the US.

21 min  
13s

They are also going to use the **Diego Garcia base** in Indian ocean, where they are going to have the B2 bombers come and drop the nuclear munition for this planned genocide, against the Iranian's people. 70 millions out of them are going to suffer from this, because they have the unfortunate fate of sitting on mass gas and oil resources.

We are also speaking about an **Israeli strike**, potentially nuclear according to **Ehud Olmert** and **Avigdor Lieberman**. The **IDF** and I say the « retired » mossad, yes, really retired mossad, you know anything about the Mossad.

Victor Ostrovsky, you know, **nobody retires from Mossad**. We are talking about 1500 targets right now. I think the idea in the media is well 50 to 100 targets, no no no no, it is 15 hundred. They are going to bomb the nuclear plants, right create a new global “Tchernobo”. They also going to bomb the chemical plants, the industrial plants, I mean that country, when the neo-cons like **xxx** says **packing up, packing up, packing a lot**, yeah they probably get what they want, if this plan goes through. That's why, it is imperative, that we stop them.

22 min  
13s

A couple of more things here I said, generals are **warning a military collapse**. I've got a touch by general Gardener, how do we know about some of this stuff ? There is a group within the Joint Chiefs right now, and that's freaking out, I mean, it is not just me, I mean, I am not a military expert. They probably know a lot more about losing wars right now, they say our military is at the brink. Did you see Time magazine about a week ago ? Which said our military is at the brink, we can't fight another war. There is a group, who tries to warn us, there is rebellion even within the ranks of the military. There is insurrection in the lower ranks in Irak right now. There is rumor of mutine and certainly some of the top ranks, they cannot keep together.

A couple of more things, they put 16 F16 fighters in the Incirlik base in southern Turkey, southern Turkey right above North of Iran, that's a sign that the invasion is coming. Another thing, they had 4 plane crashes since 2001 with revolutionary guard members on board, killing hundreds of them.

23 min  
00s

Sorry wandering the crisis for say awkward : how can we , what are you doing ? Show peace, and you know, that they are trying to **put the trap on you**, it's true, I wish he hadn't done it, but since 2001, could you imagine, if 4 US military planes blew up, killing hundreds of our troops, and it is not just troops, it is top intelligence chiefs, top people within the military, top commanders. They murdered, executed by having their plane blow. You look out of the size of the planes, big circles on the plane. These things blown out of the sky with the munition inside. You know it is quite clear, Iranees are aware of this, there has been an assassination of a top Iranian nuclear scientist, abduction of top Iranian diplomats, who have been tortured by the way, water boiled. They had got the skin ripped off, they had got their finger nails ripped off.

In fact in the recent case with the 15 **abducted UK soldiers**, they released a diplomat from Iran, who came back with torture marks all over him, very nice what's happening to top level Iranian diplomats. Pipelines and bus bombings in Khughestan, which I talked about, well you got to take their oil, so you have to bomb their pipelines to get the region all fired up.

24 min  
00s

**Iran Freedom Support Act**, passed in October 2006, this begins the investigation, and really cut off many Iranian banks, the top Iranian banks cannot longer function within the international finance system. This is economic warfare against the people of Iran. So these retired generals are warning us of disaster, that's Gen **Hoar**, **Kern**, **Zinni**, **Odom** and many more, these are top level people, these are top level marines.

- Zinni was the top commander marine in Irak.
- Odom was a top NSA guy. This is the military industrial complex thing, even we are scared about this.

I mean these people are so crazy, we think that they are going to blow up the world.

What are they always saying ? Irak is bad enough, don't go into Iran.

There is rumor of resignation within **Joint Chiefs Staff**, establishing as many of 6 people could resign. That's from **Robert Parry**, who was the top Iran conference investigator and journalist. **Wayne White**, from the State department warns a nuclear, of course I've spelled it like Bush there, nuclear, I should have said nuclear, nuclear attack is imminent, and of course we have the warning from **Zbigniew Brzezinski**, who in Feb 07 says : "they might engineer something; they might do an attack, they may stage something on American soil and try to get this done"

So what's the potential a **Gulf of Tonkin** or **USS Liberty** ?

25 min  
05s

And I didn't mean to do this, but I do want to say I have never talked about the Liberty- look at the Liberty in 1967, you begin to understand the **History of Israeli force false flag terrorism**, I also encourage people to look up the **Havana affair** and put "Al Qaeda cells in Israel", which have been broken up and have found Mossad agents in them. So it is around the end game war. I will argue it is. it is a normally continuation of policy in the Middle East.

This is the **beginning of a radical new break for a world war**.

The CIA has judged Iran to be 9 years away from the bomb, and even radical think tanks said, there is 3 years away. Think about that. So there is the nuclear threat, the substantial, (pardon me) threat, that Iran will get us. It is mainly largely just a faction. The **IAEA** says Iran's nuclear program is completely within the rules, but it is decrepit, it is breaking down, the centerfugees when they spin, they disintegrate, the **doc of Germany** says : we have got these working power plants, that is largely propaganda for internal consumption of the Iranian people.

26 min  
05s

The propaganda source of these nuclear rumors : **Iran-Syria Operation group**, that is **Abraham Shomsky**, that is **William Woosley**. That is the **gludiest** fight network of the israelis who pumped up into this stuff out, to get into the **OSP**, and the same people, who layed out the full propaganda, manufacture case for war like : **Donald Faith**. That network is now working in the **SIOG** pushing the same garbage, with the same journalists, and the same newspapers, and the same control propaganda, telling you : "be afraid, they will get you now, or we lie to you, but we are really being serious this time, and we swear, just believe us please"

Now, what are the 3 reasons, why this is happening ?

Number # 1: israeli blackmail and **threats to invade**, **Abbie X** came here in January ,and said to Bush, either you invade in the next 6 months, or we will.

How does that sound ? I mean the breeziness of Israel. I will talk about that.

27 min  
00s

#2 : **Iran is switching from \$ to Iranian's rials and to € for oil paiement**, and this is a big deal. That is what **Sadam Hussein** did before the invasion, he took the oil for food program, and 10 billions of dollars, and start to put it into €. Nononono, you don't do that, because that is a major pressure on this weaken currency. That is another reason, why it is happening.

And #3 : **Iran** represents the military foothold, and the diplomatic foothold, and the currency foothold for **Russia and China** in the Middle East.

Who is arming Iran right now ?

Russia and China. That is a backdoor to WW3 or WW4 as they call it.

---

Israel, there are managing the “clean break”. Here is a picture from the Israel Supreme court, you see the Osin eye pyramid there, and their rise for the cold symbolism, it is an amazing thing to look at. So **Israeli tail wags the dog**, a lot of people say : “well Israel is just a puppet state, Israel doesn't run anything”. I am saying the tail sometimes wags the dog. It is not just, that they are our puppet state, I think that Israel on many ways is **directing American foreign policy**, right now.

28 min  
05s

They are receiving at least **3 billion \$ a year in US aid**. That's a guaranty economic loan, but a lot of that is just military, it is just weapon systems, that is given basically free order to the Israelis. In 1996, it was a document, I'm sure some of you are familiar with it called the **“clean break”**, which is produced by the neo-con Likud radicals, calling for agression against Irak, Iran, Syria, Lebanon, and expanded settlements in Gaza, and the West Bank. Basically saying, we are going to push the Palestinians out in the river.

How that sounds ?

There are the same people, who are pushing for war in Irak, the **Office of Special Plan**, it is **Ledeen**, **Perle**, **Feith**, **Wurmsen**, **Shulsky**, **Elliot Cohen**, **Luti**, **Gingrich**, these people are quiet from the same Kabal, who are putting together the “clean break” document.

After 911, these people are heading something called the **Office of Special Plan**, you want to know, where the propaganda is coming from, it was the OSP, and it was an israeli conduit.

Uk Guardian has reported into their article “the spies who pushed for war”. There was a sister conduit in **Sharon's** work cabinet. **Xxxx**, back and forth the result of this is going to be **AIPAC** the major israeli lobby, the biggest israeli lobby. And 2 individuals **Keith Wiessman** and **Steve Rosen** are currently on trial under the espionage act, for passing classified info back and forth, between an individuals named **Larry Franklin**.

29 min  
15s

Who is Larry **Franklin** ?

The top Iran analyst on the OSP, to see all this stuff beginning to steam roll. It is all related back to an israeli espionage network, which is still in United States operating. Something called **“MEGA”**, back in 1990's there is top spy never identified for Israel, such talk about the incredible reach of this israeli lobby.

Well **PNAC**, we talk about the Project for a New American Citizen, and its great job for them, but the Project for a New American Century was loaded with Israeli hawks, and Israel first crowd (**Feith**, and **Dov Zakheim**, **Elliot Abrams**). You've got the influence in the war of **JINSA** (Jewish Institute for National and Security Affairs).

Who sits on their board ?

30 min  
00s

**Cheney**, **Bolton**, **Ledeen**, **Feith**, **Perle**, **Woolsey**.

So you see a trend beginning to emerge here. JINSA was so powerful that Colin **Powell** said recently during an interview, that Donald **Rumsfeld** was the JINSA crowd.

The JINSA crowd, there is a vast influence of the Israel lobby, which breaks themselves out to make them seem like, if they have diminished their power.

There is AIPAC and AEI (American Enterprise Institute), WINEP (Washington Institute for a Near East Policy), ADL (Anti Defamation League), CSIS (Center for Strategic and International Study) and the Hoover Institute. That is just some of them. I just wanted to flash a few of them.

You also have the Defense Policy Board, being run by Richard Perle, a major israeli lobby, a major mole for Israel. Major war planning by Paul Wolfowitz, who is described in Israeli newspapers as liberally pro-Israel, you know completely pro-Israel.

Dov Zakheim, who was on the PNAC document, and also the individual who helps loose \$3 trillion in the Pentagon, is a dual citizen of Israel. He was also operating at Systems Planning Incorporate, before hand running remote control flight software, but that is all I will say about that. I don't know what that means...

DHS, Chertoff for the department of father's land security, is also a **dual citizen of Israel**. Again you see a power beginning to emerge here with the head of Home and Land security, which I want to talk about “**The Espionage rings**”, as they do dual citizens, it is very convenient.

And the AIPAC is forcing the democrats to remove the Iran authorization from the latest Defense bill. The congress was saying it, we want authorization before you go into Iran. We are not saying it's wrong, we are not going to do it, but you'd better to tell us first, we vote on it, that is, why we retain the power. AIPAC came in and topple all see, we give you the instruction : “pull this out” it's go on, pass the bill, no rival for Iran.

Israel espionage in the US, it is ok to talk about that. Don't worry, it's ok, it is not anti-semantic. It's ok, that is real, that is factual, that is AP, this is History.

The art student spy ring was operating in 2000/2001, probably before then, where hundreds of Israelis were arrested, interrogated and deported by the DEA. Go on google it. You think, I am somehow weird, go on google for yourself, and you will find it : AP, New York times, all over the place. The New York times didn't cover it as much, as they would have, kind of funny that they didn't do it, hey ? They attempted to penetrate military bases, power plants, government agencies.

And of course, there is a link to 911, where Mossad operatives were videotaping the attack in New Jersey, and were arrested. They were part of the “Urban movers” company, which was a major front linked to the spy ring. They cleaned out their offices within days. Mossad agents have being followed alleged hijackers around Florida. Often living a few houses away, that's from the Sunday Herald. A few houses away from the hijackers of Florida or alleged hijackers.

Where were the key officers ? I don't know what do you think ?

Maybe, there is also report from Fox news, that AMDOCS and Comverse, 2 israelis companies have back doors and able to tape our phone calls, and a lot of internet traffic in this country, and of course a lot of that was crushed by the influence of the ADL, which went on the major media, and said : “you discussed this, you are finished, you hate Jews hey ?” The ADL, I mean that is a terrorist organisation there.

So they can put me on their list, ok, I am not afraid of the ADL. I am not afraid of the Israel lobby. I am not afraid of these criminals, ok ? And any of you should, you know, nobody should be afraid. Don't let people call you an anti-semantic. You try to help Israel. If you are trying to stop these crimes, that what is good for Israel.

Israeli people will be destroyed, because their leaders are criminals, and they are sending their country into a nuclear holocaust. That's where the real holocaust is, alright ?

-----  
-----

Switching gears a little bit, I want to have a continuity here, but just for the interest of time, let's talk about the **currency issues** here. Private debt, federal debt, and bankrupt USA. What they call the **debt of the industrial complex**. That is not one of the biometric one in there.

I've not got the pictures, stick a bit of water here, that was necessary, I'm sorry.

So let's see the **bubble collapse before 911**, who needed a crisis ? Which bankers needed a crisis ?

Ok, let's put the charts, look at the charts :

- Feb 1995 NASDAQ at 800,
- Feb 2000 NASDAQ at 4700, that's in 5 years.

That is why we are calling a bubble, that's half money, that's the **Federal reserve** pumping trillions of \$ into the system, pump it into the bubble.

Who is making money out of that ?

Some of the arabs people were. A lot has been re-evaluated, they were spending their wealth, the world gap has grown in the 1990s. So you were going to be really rich and people got wiped out with the Internet stock windows,

- Sept 2001 the NASDAQ says 1500, so they had a profit, cut by more than half, I think 75%-80% it was.
- Then April 2007, now we have the NASDAQ stabilizing around 2500.

And you say, it didn't go up very much, but it is stable, so if you had a complete crash. The NASDAQ would have wiped out to way worst to 800. The bubble was bursting, and what's happened since we decoupled from the Gold standart, is these bubbles were created.

**The Internet money is now going to the real state bubble and now this bubble is collapsing and bubble after bubbles and each time it gets worse and each time they try to plug it up more and more.**

Who needed to get a crisis ?

It is the people who are manipulating the finance market, who else needed a crisis ? Who are the chief beneficiaries ?

Go check the charts of **Raytheon**. Go check the charts of **Northwell Rock** and **Lockheed Martin** and the other small military properties, but particularly look at **Halliburton**. Right before Sept 11<sup>th</sup>, it was 4\$ a share, what are they trade up today ? 40 \$ a share something.

Do you think they have got some interests in manipulating this? Who are the beneficiaries now ?

You can say all this is just distraction right ? Because that is **Federal reserve**, and there has been great research around the Federal Reserve. We talk about the families who own it, **Rothschild**, **Rockefeller**.

34 min  
00s

35 min  
12s

These people are printing our money. What I've done, it's a some research to find, which banks control the shares. I hope everybody goes and look at these stuffs. **Look at the history of the Federal reserve !**

And who are the original share holders for their back 16000 shares, which were originally put out ?

36 min  
00s

Those banks have changed their name over time, you know first **National Bank**, first **City Bank**. They all become these banks, and I put the Bank of England first.

Because when you look at the **creation of the Federal reserve**, **Rothschild** is coordinating directly with the Bank of England. I tend to think that the bank of England is maybe the over lord master. And then, there is a faction, within there, which controls our Federal reserve.

There are layers upon layers upon layers. If they show you Rothschild, there is someone above that, you know, there is always a layer remote.

So about the other banks really, this is the people, who are printing your money, ok ?

When we talk the **Federal reserve is private !**

These are the banks who own it, these people, who are printing the money, probably have your money right now. Citibank, Goldman Sachs, Rothschild, JP Morgan, that's **Rockefeller**, they merged together, **Lazard**, **Brown brothers Harriman**, people who backed the nazis and **Prescott Bush**. Oh so soldiers really! Bank of NY, UBS securities, Lehman brothers, **Deutsch Bank**.

37 min  
00s

**They are connected to the inside structure**, by the way.

"BTI expand", which merges with them, "Buzzy crown guard", that **Deutsch Bank**, they are getting awesome guys you know; just make you want to do business with them, hey ?

**Bank of America**, you know, what they used to be **Bank of Italy**. **Israel Mossa Seith** and **Bank of Italy** the original shareholders in the Federal reserve, that's not the **Bank of America**. Question : How can American really is ?

And of course **Morgan Stanley**.

So these are the banks right here.

I hope everybody starts to look at these, when we talk about private Federal reserve, it is these guys alright ?

But it is bigger than I ve said.

They are some called the **Bank of International Settlements**, the **BIS**. They described themselves as the central bank of the central banks. They say we coordinate policies with everybody, and next to them, I've got a picture for the Jesuits, the **Vatican Bank** there.

And if you look into the **P2 masonic** skeletem in the 1980s in the **Vatican banks** skeletem. You also begin to see a hidden hand of the Vatican banking system. So I encourage everyone to look into the **BIS** and the **Vatican banking system**.

38 min  
00s

Now I've listed some of the other members, which control what I am calling the Euro-American-Japanese. It is not very original, **system of a parasitic international finance**.

So the top 3 there are Japanese companies, **ICBC** that is Chinese, **BNP**, **Credit Agricole**, **Société Générale**, **Fortis** those are all French, **HSBC**, **Royal Bank of Scotland**, **Barclays**, **HBOS** these are all British, you take **ING**, **ABN Amro** those are from the Netherlands, **Credit Suisse** that's from Switzerland, and of course **Merrill Lynch**, **Wells Fargo**, and the **Export-Import Bank of the United States**.

These are the people, who take the currency and manipulate.

And these are the people, who are controlling this parasitic system of international finance. We need to start to look at these banks, we need to start asking : why are they control our lives, we need to start saying : is this the real engine of this oppressive and can we identify them ?

I think, I will flip back there, these guys print your money. Look it up, take the slide, look it up, find on research. Maybe I am wrong, again I am not.

39 min  
00s

Alright, so let's look **the € Vs the \$** since 1988. It is an old chart, but it doesn't look good at least for the \$. Unless you are holding € right now in your pockets, and I doubt you are. I bet you have \$ in your pockets. € Vs \$ since 1988, it is not a pretty picture, it has been a pretty straight ride, up ride. In fact the \$ just hit a 2 years low against the €. US \$ index since 2002, this is the other version, you watch it's going down, in fact they have a change here, US \$ index since 1983. Again not a pretty picture, but I've not got my laser pointer. I do want to point out : yes the **\$ is crashing** right. But look, here they are holding it a level right around 80. There is a support level, they are holding it right, they know that the system is coming down. But they want to hold it, yes the \$ is coming down, yes since 1983, the value of the \$ has been chopped down. They are holding, holding it for their dear lives. They think they can bring it down slowly, gradually, for a death of the \$.

39 min  
55s

Look the **gold versus the \$**, ok, look at gold you had gold basically traded at 2,50 \$ in 1989, stand what to 60-70. You see why the price of gold is representative of ,where the international bankers are putting their money. It is not in the \$ folks, they are going to wait, that you got wiped out.

They are going to gold, they are going to €, they are going to yen and Brazilian real and UK sterling. You are supposed to get wiped out, you get your cloth clean. They make money by stealing your wealth, again nice people.

### **What is the eventual goal ? One world bank.**

And that is becoming right, and they are pushing for a one world bank, but they are. And when we are looking at the earlier institutions, which are doing it : **World Bank, WTO**. I mean, this has superseded the power of US constitution. WTO and that is Bill Clinton. That is not a partisan thing.

It is both parties are working to screw you and **Internal Monetary Fund**, here you see the symbol for **Trilateral commission**, the **European Union Central bank**, **European Central Bank**, they are forming together, they are a little bit ahead of the game. We are a bit slower here. **World Economic Forum**, the **Bildelberg** group.

41 min  
00s

Cause I am sure a lot of you know about **Bidelberg**. The 120 the world's top leads, the top's lord lines family, the top's oil and Europe families, who are very close to the control of the level of the system, getting together, not necessarily dictating all the policies. But they are going to discuss, which direction and will take your world, and they are not going to let you in in the meeting.

The UN Economic and Security Council, people don't talk., **UN Economic and Social Council**, I'm sorry, people don't talk about that enough, and the **G8 summit**.

That is another major group, where the countries get together and say how are we going to plan this war for people ? We control the world, what are we going to do ?

## The push right now is for a World Bank round, how do you get a world bank, how do you do?

You need to kill the \$, it is a control collapse. It is, I mean.

I don't think anyone in the league predict, that the \$ is going to survive, how long ?

A year, 2 years, 3-5-10 if we are lucky maybe, it is coming to an end now. The move, the credit is about to roll ok ? So I said the \$ on the death bed, the end of US currency hegemony.

I hope you can hear me, am I speaking too fast ? Alright, cool, it's good to know, alright.

So the \$ is still 65% of world's currency reserve, but is dropping, the world's major central banks are liquidating the \$ right now. The Russians are, the Chinese, the Europeans, I mean United Emirates, Qatar, Middle eastern banks are doing it. They are not going to tell you that in the wall street journal, you go on their websites, and these people of these countries are saying : oh yeah we are selling the \$, finance minister just comes out and says : we think the \$ is finish, we don't want to have apart of it.

You know in March 2007, the Chinese finance minister just said we are going to diversify into gold, into €, into yen, into our own currency. They are scared, because they see that coming down, and they say we don't want to have in their hands this worthless paper. They know it is **theatre**, they know it is based on nothing, it is **fictitious**, think of our imagination and play the game, it is worth something. It is not, it is a joke, but because such the biggest assets are US \$.

They need to start **switching that over**, but if they do it too fast, the all thing comes down, they loose anyway, **slowly** they think the Chinese think they can bring it down slowly to the globalists. The anglo-american think, they can bring it down slowly, that is why you are seeing them working together.

You see all the policies coordinate, because in one hand there is this **war against China and Russia**, right. This confrontation is growing, and on the other hand they are working together economically now, why ?

**Nobody wants the \$ to collapse too fast**, sort to do it at the right path or medium path, right, and just get you wiped, slow torture you know. It is like the Chinese water torture, that is what is it with the death of the \$.

The € is up 50% since 2002, it's just a fact, 2 year high against the \$. Again when we are talking about the US bankrupt gambling double down gambler, that is what all this country is, very drunkly the digits gambler, when they decided to double down.

3\$ trillion missing from the **Pentagone**, 2,3 trillion in one year, it is like another trillion. Who knows how much is really missing ? I mean this is only, what they found, 3\$ trillion.

**Dov Zakheim**, Dov Zakheim – just a little aside, he is working in a company called **Booz Allen Hamilton**. You want to understand, who is he? How is he controlling the shares of the government right now ?

Just google it, and Booz Allen Hamilton and that's all what I will say.

The **current account deficit** is over \$ 800 billion a year. That means that the US needs roughly \$70 billion in foreign investment per month to cover its current trade deficit. This is over \$2 billion a day. It is a bankrupt, if we were a credit card consumer, they would have closed down everything right now, and they are, but I mean they are by assets.

The Chinese have announced that, they are going to take their currency and start buying our stocks, buy our assets, buying our highway, buying our rivers, buying the forts, and the ports. It is a **fire sale!** Your banks are going to be sold out, your property is being sold out, your IRS has been sold out, your ford has been sold out. It is a fire sale, welcome to their game, and they are expecting you not to know this, just play dum, just be a good person, just keep watching TV, just take their medicine tabs, go back to sleep stupid, right ?

45 min  
00s

The **official debt** of this country is supposed to be \$9 trillion, that is what they put, when **Paul O Neil** resigned, he said it was like 4 or 5 \$ trillion off the book you know ok ! But when you look the long term debt, major mainstream news articles said long term debt **\$45-75 trillions**, that is more than assets in this country !  
There is more long term debts than all the wealth of this country, ok !, it is over we've been sold out, we were sold out already a longtime ago.

There is not a lot of coming back to this the question is : how slow is the collapse going to happen ?

And if we look the comprehensive and the financial report **CAFR**. We have been looted, they have been actually really more money than they told us. That money has been stoled and the government keeps 2 sets of books, they have the book for you and they have the CAFR. So they looted the State budgets, the local budget and the federal budget with the CAFR. Look into that stuff, they have been a lot more money, that they stole. This is a **high standart level of bank robbers couldn't dreamed off**, you know. That is what the people are, they are the bank producers and the bank robbers at the same time.

-water break-

46 min  
00s

The **debt house** card is beginning to collapse, it is called the "**debt industrial complex**".  
**Collin Fillets** I know gas got a little war over, it is hard play, not really, but the debt industrial complex is what they cause this.

It is now, what we have **a system is now build on debts**, build on credits. The country doesn't make money anymore. It's all debt, everyone is on debt, the country is on debt, you are in debt, I am in debt, everybody is in debt.

Collapse of \$1 trillion **sub-prime loan market** is an indication of where we are going. The bubble is collapsing, the Fed's put trillions of \$ into the system, credit free for all, which was pumped into the real estate market. When they were saying no money down, nothing for the first 2 years and the value of houses keeps going up, we will give you a 2<sup>nd</sup> mortgage, 3<sup>rd</sup> mortgage, keep leveraging, keep leveraging, and now the paiements go up, and nobody can pay these paiements. So you see all the sub prime loan, the mortgage lenders are going to belly up.

They are going to be de-build up probably in this is a crisis for the bankers right now. The mortgages backed securities market is tanking (what's **MBS**, right?).

47 min  
00s

That's where they take thousands or 10 000 people with a sub prime housing loan, and package then into a **bond**, and then they sell this bond. And so when you are paying off your debt, you are actually paying some bankers, who borrow a bond of your issue ok ? And that's how the overall show is leveraged.

Now where is it leveraged ?

Into the **hedge funds**, that is \$1,5 trillion in unregulated leveraged speculation, that is 100 to 1, even 500 to 1.

And you want to see, how this affects the market having all this 8 to 10 000 hedge funds? 1,5 \$ trillion unregulated could blow up the 6 billions Emirates fund and Canaedic. This fund blow up natural gaz prices, tanked from 9 to full hour to 50 cents. It is one hedge fund blew up.

What do you think is going to happen, when 5 or 10 will blew up, or 15 or 20 or 100 or 500 ? How can we plan this market ? and just think it will keep going up, and up, and up, it is not going to be pretty !

Now what's the leveraged on top of that ? It gets worse, I am sorry, the **derivatives market** : between 400-600 trillion in parasitic leveraged side bets and debts leveraged 500 to 600 to 1.

You want to talk about the casino mentality of these parasitic bankers, that is all what's going on.

So you see how the house of cards have been build up.

**The debt industrial complex, the credit complex, the mortgage back's security, on top of which is going to the hedge funds, which are going to the derivatives. And when the bottom falls out, you fall out, I fall out, and the \$ falls out.**

US \$ doomed by **inflation**, they have now institute the “**plunge protection team**”, the PPT, the head of the Treasury, the **SEC**, and Fed reserve are working to prop up the markets with hundreds of billions of \$. You know, there are reports about Irak that they just printed out billions in pallets to Irak. That is not regulated money. That is kind like a window the way the **Fed** operates, that is just one how they want to loan the money, when they want to, and they give it to third party, and select their party and put into the system.

So why the market hasn't collapsed yet ?

It is collapsing and the PPT keeps running it up, and the people, who should sell that to the market, have to cover their shirts back. And that's create a false rally, and that has gone for a while, the PPT has been activated, the **Fed's M3 money supply** is no longer public as of March 2006 - lie - Because they are running out a lot of money of those sheets. They are printing a lot of money right now.

We are looking at a **major hyper inflationary spiral**.

The **Yen carry trade**, how the system has been financed, I talk about the Japanese influence. The Yen carry trade was with Japanese interest rate so low, that people basically took free money, and put into the speculative bets, is coming to an end. Because as of early 2007, Japan is raising their interest rates, just a month or two ago and both China and Japan will need to raise interest rate to curb inflation in their own country.

You might have seen the Chinese stock market fell 9% in one day. “Yeah it is out of control, it has been growing too fast”. They need to raise interest rates. They will preserve themselves, and doing so they will damage the \$. And this is the steering balance, they try so hard to make it falls slowly.

But you see it is a delicate ballet, and there are so many combined interests, and I don't know if they will be able to do it.

**US debt is Japan's biggest asset**. So they have an interest to try to control this thing and manage it as a collapse. China has trillions of \$ in US reserves and says they are diversifying, as I mentioned, and what's happening?

**International Monetary Fund**, and the **BIS** (Bank of International Settlements) I talk about, are demanding a further \$ depreciation. I mean just recently the IMF said : \$ needs to be devaluated by lot more. They are telling you, they will take your bank account, that is a common robbing you.

You own \$ 100 in your bank account, they are just taking money out of your bank account. The \$ has been depreciated, that means that they are robbing you literally, really taking your money anyway, because now your \$100 doesn't value, what they used to.

Average citizen : sunk in debt. Real wages haven't rise since 1970, and that is related to the destruction of the gold standart (and the death of Bretton Woods agreement, that was done by **George Schultz**, **Paul Volker**, and some other bankers.

I'd want to talk about that, that's **entry the free floating \$**, because **Webb** makes a good point, all currencies are theatre, isn't it ? All currencies are theatre, that is real theatre, there is no back into it now. It is **unregulated**, this means that this thing just runs off money. There is no gold back it up. There is no pallet of it, send it to Irak.

51 min  
00s

Credit card debt carried by the average American over \$8000. That is old statistic, that is in 2002. I imagine, it is far higher now. Total consumer credit over \$2 trillion, again that is old statistic. Recent article **personal savings at 74 year low in this country**, negative rate of savings, worse than the height of the Great Depression. That is mainstream, 74 year low personal savings ok ? And it will come up, I promise.

And I mean the gap between rich and poor is higher than the Gilded Age. Mean the wealthy are getting wealthier, the middle class has been evaporated coming into the working class. The working class has been sold straight into poverty and homelessness. It is a drive down for the vast majority of this population.

So let's see the vision of what's going on here. That's the CEO Vs minimum wage chart here, 1965 the average CEO is 51 times minimum wage, today it's 821 times.

Who is benefiting from the system ? Do you benefit that much ? Have your earnings gone up that much ? Nononono, your revenues were stagnant since 1970, if you 've been alive that long, I haven't. But look at CEOs wages, you begin to see, who is profiting of this system.

52 min  
05s

The rich keep getting richer, that is a chart from the associated press and the census bureau, again this is just the official numbers. But you can see, that the tops have increased their wealth by more than 75% and the bottom by they say 20%, I don't even believe, that they 've increased by 20%. I think that those numbers at the bottom are generous. But you see, that the gap is getting bigger.

### **Where this all lead ?, where this \$ collapse lead ?**

This lead right to the **North American Union**, and you say that's seem quite weird, those things don't seem to be connected, do they ? They do, they are connected.

The North American Union is connected, because of one individual, whose name is **Robert Pastor**. Look this guy up, ok ? Start to study this guy, you want to see, who the really evil people are ? Right there, that face, he is calling for the **Amero**. That is not a conspiracy, really openly in his books, saying the Amero, the \$ is going to collapse ok ? That's given, and the US \$, the Canadian \$, the Mexican Peso will be merged into the Amero. So else the \$ comes down, where are they going to send you. The guys have got a back plan, right ? You think they are globalists and isolated leaders will be at hot seat at their hands, no they have got a plan : the Amero.

53 min  
10s

So little pause right there.

Pastor called for a **new 911**. Yeah, he said : “ I am not advocating or encouraging, or wanting a crisis, I am only saying that in order to take important initiatives, sometimes one manner in which this occurs is when there is a crisis to which leaders need to respond”. He goes on and says: “the 911 crisis made Canada and the US redefine the protection of their borders”. I Guess made them more open right ? “The debt crisis in Mexico forced the government to adapt a new economic model. The crisis oblige the government to make difficult decisions” Crisis create solutions, problem reacts solution, remember how Guilty gets re-elected. He goes on, that is the most pointy party : “What I am saying is that a crisis is an event, which can force democratic governments to make difficult

decisions like those, that will required to create a North American Community”.

53 min  
55s

That means destroying this country, taking the CFR agenda, because Pastor works for the CFR, that was a CFR taskforce, he was a part of. He is saying : “It is not that I want another 911 crisis but having a crisis would force decisions that might otherwise not get made”. Oh he doesn't want it, but if it comes you know, we will probably take the North American Union.

This is again part of the PNAC Pearl Harbor comments. This is the new new Pearl Harbor comment. Say we will get you in the North American Union, we don't want a crisis, but if one happens, you can get this North American Union pretty easy, could we ?

---

**Robert Pastor is pushing for the SPP as a CFR agenda.**

Let me flash this out a little bit. Traditionally watchers, when they get the documents from the North Command, which said that NorthCom, which is the brain, who controls the military in this country, if there is Martial law. If we have a terror attack, tomorrow and they declare the Martial law, you need to get into the camps, get the FEMA camps. It's NorthCom, which is running this country. And they are ready to take over, they are ready to suspend past and current coms in this country. NorthCom fits primarily since the 2006 meeting the tradition watch gets the documents for. Here the top leaders from NorthCom there, and they brag about merging the Mexican, Canadian military of the US since before 911. That's what we have been doing this before 911. We were coordinating, merging the military, merging the economy, and bragged about it.

55 min  
10s

**Freedom of information Act, SPP**, who are the US representatives at the secret SPP meeting ? Very good indicators of who is controlling this country, representatives from Lockheed Martin, Chevron, Wall street journal, NATO, under secretary of Defense of this country, the Migration Policy Institute to tell you how the good things of this board are. Representatives from Lawrence Livermore, National security council, the chairman of the Defense Science board, very powerful group right there, Peter Pace who is the head of the Joints Chiefs, James Woolsey of CIA, and Booz Allen Hamilton. Again google it Booz Allen Hamilton, it is good stuff and of course James Schlesinger who is the former Energy and Defense secretary. So pretty heavy hitter at this meeting. Were you invited ? I think I may get lost on the mails for my invitation. Now who is the chairman of this meeting ?

55 min  
55s

Right, George Schultz, let's talk about George Schultz, George Schultz right, you see the influence of this individual, who is a member of the CFR, Bildelberg group, Trilateral commission, and Bohemian grove. I mean that's a full hitter, that's a ten hole runs in one game. And this is an individual, who works with Paul Volker to dismantle the Bretton Woods system. I mean you went to talk about a tool of the bankers, you know, a hand puppet. They are your men right there, destroy the gold standart under Nixon. And he is the chief handler of the neo-cons. That is the individuals handpicks Wolfowitz, and Cheney, and Rice. And he is the master of the volcans, so this is a little bit, where you start looking up at the pyramid, when you start to look at the man like George Schultz.

Schultz past, present, and futur :

Well he worked at Bechtel, which has privatized third world assets, extremely evil company. He was the head of this company, he is still on the board. Secretary of State under Reagan, chairman of International council of JP Morgan Chase, this is will let you know, who I might be working for (Rockefeller, Morgan network of finance oligarchs).

He is also co-chair of California's economic recovery council with who ?

**Warren Buffet**. And who Buffet works with ?

56 min  
55s

See that guy right there, that beautiful guy is **Arnold Schwarzenegger**, and the decreptical white man next to him is **Jacob Rothschild**. I can't believe, that I've called him beautiful, that guy ego needs something bigger, you know. This Austrian acts like superman nazi, who said that all people need to be control. I don't mean to hype compliments on him, but you can begin to see, where Schultz his ties, Rockefeller, Morgan, Rothschild, you see how the circles begin to move.

Schultz, who found him ?

When he works at something called the **Hoover institute**. I talked about that a little bit before. So who funds the Hoover Institute, the major neo-cons war mongering think tank : **Archer Daniels Midland** (that's GM food), the **ARCO foundation** (that's the **HAARP system**), I will go to this a little more, **Boeing**, **Exxon**, **Ford motors**, and **General Motors**. Those are the the nazi financiers, and they do a lot of the fake left foundation funding, so JP Morgan and **Dean Witter** for the Federal Reserve.

I've said 51 or 15, really? Damned boy. Alright so anyway,

The **SPP is the Nexus of the coup faction**. And obviously these people are trying to push for a **North American Union**.

57 min  
55s

There, you can see the **NAFTA** super highway, where they are trying to push right now. They are doing that with the Trans Texas corridor, proposed 6 lanes for a decent railway system. They are talking about a pipeline underneath. Foreigners to build the NAFTA programs, they are having, the Spanish company **CINTRAS** build this. They are also buying local newspapers in Texas, and in Oklahoma. They borrowed up the Indiana highways, they borrowed some of the Chicago highways. They are doing it through the **Eminent domein**, mean they can take your private properties, supprim a while before, they can take your property. That was the case in Indiana Connecticut New London, Who did this ? That was the **court liberals**, it was the people like **Steven**, and **Kennedy**, **Souter**, **Bader**, **Ginsburg**, and **Breyer**. That is **xxxx** who did that to you, they are pretty good preachers individuals themselves, and doing this can build the \$300 million research center for **Pfizer**. So here you see, "Eminent domein 21<sup>st</sup> Century reality", you see the camp trials on the sky from a guy named David Deese.

The open board of the **SPP is a bipartisan issue**.

58 min  
55s

Clinton pushes **NAFTA**, no border guard, services to illegal immigrants, "guest-worker", total amnesty. Bush pushes **CAFTA**, blanket amnesty, "guest worker", and a "phoney virtual fence" which is a \$2 billion handout to Boeing for spy drones, and what are they doing now ? Lobbying for the **FTAA** trying to expand "**free trade zone**" to South America. The FTAA is stalled because of Chavez in Venezuela, Morales in Bolivia, and Correa in Ecuador, and Kirchner in Argentina, who are opposing this, and trying to stop this happening.

Let me talk a bit about the **border fence**, that is a massive \$2 billion handout. We are talking about 1800 towers with massive cameras. Good, they are building a fence, that's what we need. Nononono, this is a bio-metric fence, this is designed to keep you and muslim Americans from escaping in a martial law scenario. They are not trying to stop the flow of illegal immigrants and drugs into this country.

Do you think the corporations want to stop this cheap labour ? Do you think the CIA, oh yeah let's stop our own drug trade, let's crash the stock market by cutting cash air with opium ! Nononono. They are trying to keep you from leaving the country, when they do nuke this country, and tell you you'd better to get to that **FEMA's camp**. Now I carry my passport on me, you never know, what can happen, I am not going to leave, but we all better be prepared. And they want to

stop you from being able to have the freedom to move around this country, and to move around other countries. That's what they are doing, biometric tracking, that is part of the SPP agenda. They know you want to have a border fence, you will get your board fence in biometric 2\$billion to Boeing, it is a fraud, and will eliminate freedom in this country to move around. They try to get us in a cube, ladies and gentlemen.

1h 00min Who needs a false flag attack ?  
20s

Like, I've said the SPP planners, the open border is a major boon to the **drug** dealers to pump this money into the **stock market** and the banks.

75% of cocaine is now moving to the border of Mexico. That's also the majority of marijuana (let's put the schwag, that's the stuff students, see that is stands for some who know.)

Starting in 1989, the **Colombian cocaine** cartels have been using Mexico with the open border. They have profiting most of it, this is a continuation of the **Iran-Contra drug network**. Connected to Bill Clinton, I mean Arkansas drugs network operation, it takes over in 1992 the Bush and Clinton are drugs dealing business partners, and the people who are helping them run it : **Las Zetas**, Las Zetas.

1h 01min These are the ex-military and special forces commandos, trained at the US school of the  
00s Americas in Georgia. So, it is very nice to see, the CIA guys are protecting the drug dealers, you see the network is pretty good. Looking the name of **Cele Castillo** we talked a lot about this.

The banks, the CIA and Wall Street, that's the **DEA** and the CIA are enabling the cartels, that work with the government.

And like, I've said Cele Castillo, **Citibank** was busted in the 1990's for laundering drug money from **Raul Salinas**, who was the brother of the Mexican president.

**Citybank again equals Rockefeller family.**

Drugs money moving through there : \$500 to 600 billion laundered by banks at enormous rates. This money is then funneled into the stock market - coincidence you know Bush just last month allows 100 private Mexican trucking firms to move unlimited access across the border. I'm granting you, that some are going to have drugs on. It is not a coincidence.

This proposed NAFTA superhighway, they are talking about connecting from Laredo, Texas, to Duluth, Minnesota into Canada, and that is really further the net. The 6-lane trans Texas corridor, that is preparing selling you out, that is your federal government who is selling you out. Privately constructed by foreign firm, which is buying up local newspapers to stop this sent. They don't like what I am saying.

1h 02min **Taliban** cut opium production by 95%, Why did they invade Afghanistan ? Part of it is for  
00s the natural gas, trans-Caspian pipeline, a big part of the stock market is coming down. No opium anymore you see, they pump this money into it, that's what keeps the stock market propped up. So you see opium production get cut down, they put the CIA warlords, bumper, crumpled again.

What happened, what changed ?

The controllers changed right. You see **plan Colombia**, and the **FARC** and **AUC**, you know this is **Richard Grasso**, former head of the New York stock exchanges, hugging one of the FARC rebel leader in Columbia in 1999.

So why is he going with these people, who control the massive coke fields ?

Yeah, they are business partners, they work together, the money gets funneled to the bank and he is a representative. Now they were enabled to cut a deal with the FARC, so what happened : **Plan Colombia**, billion of \$ to eradicate FARC coke fiels and putting AUC coke field. There are the right wing paramilitaries. And now the AUC is controlling the cocaine market, and pump it into United States. So this is a little, that is a great picture, that's this finds how our economy works, it's just

drugs and just pure phantasm. I 'm sorry, I 've to stop to swear, so drug networks : private and public.

1h 03min  
05s This relates to 911 : the alleged hijackers trained at Huffman aviation in Florida, caught transporting pounds of **heroin** by **DEA**. **Atta** makes visits to Florida keys, has constant access to cheap cocaine. This relates to the Iran-Contra drugging network from 1980's, funneled by major banks at major fees 20 to 30 % , and also these dates back to **Skull and Bones opium wars**, that was the original **anglo drug** dealers.

**Drugs and prison**, that is one two punch, because I am sure **Atomik** can't talk about it. But there is a **major prison industrial complex**, one out of every 130 US residents is incarcerated. We put more people in jail in this country than China or any other countries. Prison industrial complex into privatization, forced prisoners labor average 70 cents an hour. Over 100 000 total inmates in prison labor, right now. That is financed by **Goldman Sachs**, and **Merill Lynch**. They pulled out the 3\$ billion on prison construction bonds. One of the fasted industry in this country. That's relate to the **privatization of warfare** . The rise of the green badgers.

1h 04min  
00s What's happening now, is the entire system has been privatized.

**Titan** and **CACI** used for torture at **Abu Ghraib prison**, **Computer Sciences**, and **SAIC** run large parts of **NSA** (to the **Trailblazer** and **Groundbreaker** programs). I will talk later about these if we 've got time. **Booz Allen Hamilton** and **SRI** run the **NRO** program right now.

They are army for hire, places like **Dyncorp**, **Halliburton**, **Executive Outcomes**, **Custer Battles**, **Aegis**, **Wackenhut**. Armies for hire, mercenaries have been used in Irak, right now, and have been used by some other foreign countries, and of course Dyncorp and Halliburton have the lobbist to not reinforce existing human traffic in laws. So there are sex slavery trade in Yugoslavia and Eastern Europe, which is dominating by these private military industrial contractors with big profits. You can buy a slave on the market of Europe for less than 5000 \$. Flashing by, what other countries do, basically like Vietnam and Cambodia. The futur economy is prisons. **Prison industrial complex**.

1h 05min  
00s **Halliburton** builds a \$385 million in “**emergency detention facilities**” in this country. I believe they were called death camps, when the nazis built them, or called gulag when Staline built them. They call it emergency detention facilities in this country. I guess it is just a semantic issue. The new programs, as they are calling it, put new programs. Just google it new programs, are pushing for new programs. **FEMA** detention facilities in most states. The US army has recently updated the civilian internment labor program. They have reactivated by US army.

Those relates to programs back in the 1980s called **Rex84**, operation garden plot, operation cable splicer, when they planned for mass detentions. That has been run by **Oliver North**, and the **shadow government** with one of his member was **Dick Cheney**.

A dominant prison economy is the futur under a martial law scenario. So let's talk about the **police state**.

Militarizing for martial law, you see that is what they want, police, M16, have an automated machine gun in your face. Please raise it to your friends more, but policemen will kill you, when these black boots and ski mask and helmet.

**Bi-partisan progression of the police state**. We need to understand both parties are working together to control us via the police state.

- They had the **Patriot Act on 911**.

1h 06min  
00s We need to be 911 truthers : how that things were printed up ?  
I mean this is big document , it's like if they were ready hey ?

- And of course you have the domestic security enhancement Act (**Patriot Act II**), which was passed after the **staged capture of Saddam**.

I've said staggled Saddam capture, actually they had him for weeks, this is admitted, they had him for weeks, and released him, and empassed this. Will we talk on articles about this ? But they did it.

- **National Intelligence Re-organisation Act** of 2004, this merges the intelligence agencies begin to merge the databases and creates a "terror czar". **John Negroponte**, the great runner of the death squads in Honduras, whose has been replaced by **Cheney**, **Albright**, **Mike McConnell**. You ve got the real **ID Act** of 2005 (that's National ID card).

- March 2006, the democrats said : oh we don't like the Patriot Act, we hate it, we just want to stop it. **Patriot Act reauthorization and expansion**, that was really what it was.

- 2006 you had the **Military commissions Act**, you can be an enemy combatants, you can torture, kill, murder by your-government, you've got no rights. Furthermore the legislation exempted Bush and his coroners for war crimes tribunals ok ? They are exempting themselves. They are afraid that they might get coped for this stuff, for the torture.

- You've got the **John Warner defense authorization Act** of 2006. It's federalizing the National Guard for a national emergency. And none of the states governors will have to say ok, give me national guard for this emergency, no order. In this bill, Bush is taking the national guard, the NY times said "Preparation for Marshall law ?" That was the tittle in the article. NY times said, that was a preparation for martial law.

- Of course recently, it was the **Pelosi** "anti-terrorism bill" of 2007, expanding 911 commission police state recommendation, with expanded terror databases. And of course, this means, that your bill of rights has been eviscerated, you are not going to be a free citizen, your rights that you had as an individual, who is born free, your government doesn't have any inner rights over you.

This is a fraud, this is to **mind control you**. They put the chains inside your mind. And the greatest chains are inside your mind. You enslave yourself by believing their rights to do this. We should all be fighting against this, any sane persons should fight against this.

The bill of rights have been eviscerated. They are developing mass databeses, like the Matrix system, they call it the "**Matrix system**". That is not a joke, they are laughing at you. They think this is funny. They think, you are an idiot, they think you are stupid, they think they can take advantages of you, you are a Mark, you are a loser, you are that person with a 3 karmatic game thinking that the A suspects are on the left, they are moving the balls, they think that you are so stupid.

Look after this, they have the **TENGRAM** system, which is out growth of the total awareness information, the **DOPSTER** ok, they say we are going to shut down total information awareness, bad press and grow into **TENGRAM**. That is terabyte and pentabyte database system. That means, they can load 10 of thousands of pages on every citizens : what you bought, what kind of toilets or paper you use, what websites you go on, where you drive. They want to track and trace everything. They are getting the system ready for that and doing a decent job, they might say you can disappear into the black site, this is federalizing the local and state national guard under **Joint Task Force Command**.

That is a preparation for a **martial law scenario**, people are saying they are undermining the Geneva conventions. Kind of, it is just a more brazen version of what's going on. School of the Americas have been training torture on all over the world. We have been working with the Nazis since world war II.

1h 07min  
00s

1h 07min  
55s

1h 09min 05s I mean this is not something new. Look into **Gladio**, they used to kill people, they used to torture people, that is a more brazen version of it. They set up the **gulag archipelago** in places like Poland, Romania, Etiopia, Syria, Egypt, Israel, Thailand, South Carolina, Irak, Afghanistan and beyond. These are the ones, we know about.

Is the people who get put into the **CIA intervention plane**, tortured and murdered ?

And that is what your governments is doing, setting up this gulag archipelago, you are going to be part of it soon, if they have their way. I mean, if we don't stop them. Emergency detention facility I talked about, you are next.

Sound good ?

We'd better fight fast. Time is running out folks.

I sometimes fear that people think these things are a joke, no this is dead serious. They are playing to keep this standart, they are thinking to put some of you in prison. I mean, when I go on stage and do this, do you how much the military intelligence people hate me for exposing what they are doing ?

Sounds ego, they hate you, I mean they detest you, they think you are scum, they want to kill you, they want to torture you, they are not just going to kill you, they will rip your fingers and your nails off, and then they are going to kill you. These people are the absolutely most degenerated things humanity haven't produce, and they hate you.

1h 10min 05s **We'd better fight back**, fight like if they have the gun to your head because they do !

Alright, we need to talk about the main legal architects, the main people who are pushing for this are 3 people : Timothy **Flanigan**, David **Addington**, and John **Yoo**. These are members of the **Federalist society**.

- Now what happened to Addington ?

He is now Dick Cheney's chief of staff. You see how the progression happens, you see how this is in related to.

- Flanigan went back to the private business.

- John Yoo, I think is teaching in Standford. You know they have got the accolades and go to make \$10 000 an hour the speech, very nice stuff. That is part of the **Carl Schmidt principle** and the **Reichstag principle**.

They have hand-picked **Federal and Supreme court police state** reactionaries to flood the **legal system**. And it is the legal formula of Nazi crown jurist **Carl Schmidt**.

**Cheney** is the "unitary executive" in war. He has the Hitlerian power, and they are creating the legal pretext for the police state, destroying **Posse Comitatus** and instituting martial law under **NorthCom**.

1h 11min 00s Write it down NorthCom, NorthCom, NorthCom, NorthCom, NorthCom.  
We need to learn, who is controlling this country : NorthCom

**Two sided Psy Op coin**, you see on the left side, they are telling yes we torture, we beat you to death, we sodomize you, we rape you, we kill you, and then, they have got **Nick Berg** on the right. You know, if there is no continuity between the corner on the back of this wall ? And the corner at the back of this wall, where you have these guys Americans snickers here wearing gold jewellery, with white hands, with their faces cover it up. You see, how he is wearing this prison pyjama suit there. You think, there is continuity between that skin on the left **broke** and Nick Berg came out just after days later. I think, it was a an execution, that they engineered in **Abu Ghraib prison**.

It is the two sides of Psy Op coin

The arabs are going to cut your head off, and we just are going to beat you to death. Playing both sides that issue. I mean part of the reason, I don't think; they want all the photos to get out. But there is a psychological operation affected it, we will beat you to death, you are nothing, you are scum, we will torture you. We will come and say you we do it. The nazis ate this stuff, they will come to tell you, that they will laugh about it. Russ xxxx thinks it is really funny, he has gone and said : “when I spent time in there, it was like a resort camp, it was really funny.” How's that stuff is funny ?, when they sexually torture people, children as young as 11, it's hilarious and people **dely** this speech. Do you want to hear this hate speech, laughing at the sexual torture, children who are 11 years old, that's hate-speech, that's somebody who need to be pulled off the radar, you know.

1h 12min  
20s  
Alright, let's talk, let's move on, because I don't want to take too much time.

-----  
-----  
The **Shanghai Cooperation Organisation**, this is a group which came together in June 2001, you want to understand, why the US are scarred. Empire was it used to be, Shanghai Cooperation Organisation. See those countries, you will have to learn more about them. They are all the people, who when a world war III scenario, they come to your way. When the sides come together, it is going to be NATO versus those guys. So let's flash them out all. **SCO + CSTO + CIS +ALBA equals counterbalance the NATO.**

So who are the **Shanghai Cooperation Organisation ?**

1h 13min  
00s  
It is Russia, China, Kyrgyzstan, Uzbekistan, Tajikistan, and Kazakhstan, controlling massive wealth of the world's liquefy natural gas and oil resources. Azerbaijan, Moldova, and Georgia are members of the **CIS**, which corrects to the SCO, so you think about them as the same grouping. Then you have the **CSTO**, which is the Shanghai Cooperation Organisation + Armenia + Belarus, it's get bigger. You have got **SCO** observer states : India, Pakistan, Iran, Venezuela and Mongolia.

All of whom are saying, they want to join this group. Minister of Pakistan is saying : “we are very serious, we want to join”. India is conducting war games and drills with Russia and China saying : “we want to join, at the same time as Pakistan”. Traditionally, they are rivals. Iran and Venezuela are joining Mongolia. These these people went to get in, so popular right now, and the **polls** went to get in. They are speaking about Turkmenistan to get in. They are even talking about Afghanistan getting in. That is amazing and they are developing closer working relationships with Syria and Lebanon, via China and Russia.

And they are edging to closer relationship with the members of the **Gulf Cooperation Council** in the Middle East (that's Qatar and United Arab Emirates).

1h 14min  
00s  
Further more it's getting bigger folks, there are the **ALBA** coalition. I talked about these left governments in latin America, that's Ecuador, Nicaragua, Venezuela, Bolivia, and Cuba, which are linking together. And all these people are coming together to form a counterbalance to the anglo-american dominance faction right now.

**Petrodollar : the spiraling death.** You have the oil bourses, which are set to open in Iran and they have already open in China and Russia. We really need to talk about this. Let's me rush to this. Major oil and gas producer are now accepting payments for oil and things other than in \$ . They want to diversify their currencies. They are talking about a Russian lead of natural gas, OPEP, with some of these countries right now proposing to take over the natural gas of the market. That is a major threat to \$ hegemony.

Of course the US is responding with **AfriCom** and “**Al-Qaeda**” bombings in Algeria and encourage it into Somalia and Ethiopia, where all the oil is right now.

1h 15min  
00s Also they need to **restrict the oil supply**, restrict the oil supply keeps the price high, keep the demand for \$ high, so people still want \$.

People talk about **peak oil, not really**. These are more staged shortages, again now, it is true, that some Saudi Arabian, and Mexican and Kuwait oil fields are declining, but the peak oil alarmist ignore Russia, China, Norway, and other countries, where oil have been discovered. It is true, that there is a lag time between discovering and easy extraction. It is true, that there are pipeline problems, and issues in building this stuff. So you know I tend to take more in the middle ground on these issues.

But **hedge fund speculation** is at least \$25 of the oil price.

And **Irak** is now a net importer of gasoline and oil. It tells you something, it tells you that the **summet agenda is to shut down the pipelines**, that's something to think about. Again the race to control oil and liquefied natural gas, I do mention that there are some countries, where I think, we will see futur battle. Looked to Kazakhstan, one of the major price they are going after.

US-Euro-Saudi cartel of oil producers, I've listed the companies there, you probably know them, I've just checked them out. Kazakhstan is likely next target.

1h 16min  
00s The problem is the **spike oil price strengthen Russia, China and non-NATO nations**, who sell this stuff. What I'd like to say is even if speak oil is staged, prices are going up. I mean **maybe it is staged**, a lot of arguments, that it is part of a **Makuzi** agenda, **population control**. Even if it is not, prices are going up ok ?

**Mercosur**, that is related to the **ALBA** group. There are other Central and South American states, which are getting together, and are saying we reject the **FTAA**.

It is an agenda, which is stalled right now. That is chess pieces for world war III right now. You can see them blinding up, we've got all on a map, or a globe or something like that in our house to understand. They have taken Ukraine now, and made that a protective NATO, right on Russia's door step. And similarly underneath on the same thing with Georgia there. Let's talk about that quickly NATO coups and conveniently timed deaths.

The **CIA** has sponsored the “**color revolution**” in Georgia in 2003 and Ukraine in 2004/2005, immediately bringing them under NATO control right at the borders of Russia. In 2005, it was a coup in Kyrgyzstan, which allows US base to be put in Central Asia.

1h 17min  
00s There have been recent untimely deaths of heads of states in Armenia and Turkmenistan and replaced by pro-West “reformists”. We are talking about NATO allies. There is a push for an **independent Kosovo** to join NATO and Russia wants to respond with allied break away regions in Georgia to come back under their control. So here you see independent Kosovo, Russia response in **South Ossetia** and **Abkhazia**, where they are saying : “we are just going to recognise them as autonomous if you want it”.

Back and forth, **Russia Vs US**, you can see the pieces lining on the chess board, the **Grand Chess Board** by the way.

**War games** : a vision into the future.

**Putin** continues to warn of nuclear war. China is seeking a diplomatic solution in Iran, because they have major oil and natural gas deals. General **Ivashov**, the Russian general staff comes up, and said : “it could be an April attack”. That signals that the Russians are really afraid.

**SCO** war games since 2000 postulate US attacks on Russia and China on a massive nuclear counter strike. They are predicting war, they are seeing it coming.

China and Russia are actively arming Iran and Syria, that's there bases. We have Israel, they have Iran and Syria.

1h 18min  
00s

**US NorthCom war games**, like **Vigilant shield**, which was run in Dec last year predicted nuclear warfare with China, Russia, Iran, and North Korea. **NorthCom** sees and are going in there, NorthCom controls the country, they know what's going on.

Chinese generals are threatening to nuke the US openly, and saying : “if you infer in Taiwan, we will nuke you”. Russians and Chinese are working on new space weapons, new missiles, what they call “asymmetric warfare” responses. That means, you are probably going to die.

There are **hacking wars** right now going on between US and China not really being covered, but look it up. And now China controls a \$1 trillion at least in reserves into US stock market. They control our dollar fate. It's a delicate balance right now, don't let them too angry hey ? Just want to point out some really important : **Noble Reserve**, this is a drill coming up on April 23<sup>rd</sup>, I 'm not saying it is not going to happen, they are saying in their scenario : multiple terrorist scenarios, 10 kiloton nuke dets in Virginia. They say, they are going to work with **Department of Homeland and Security**, which is running other exercises that day. You see it at the bottom, coordinated with Virginia's emergency operations center, that's **Mount Weather**. Ok, this drill is called **Noble Resolve 07**, it is a joint task command and **NorthCom**, of course working with **FEMAs**, and the continuity of governments saying problems begin in Europe, travels toward the US, mass warfare. We shut down the country, martial law working with the department of Homeland and Security and Mount Weather.

1h 19min  
20s

April 23<sup>rd</sup> look into this.

Is this the launch point into war with Iran ? Or we need to remember, **who ran the drills on 911 ?**

-**NORTHCOM** ran **Vigilant Guardian**, hijackings, and the AWACS drills

-**STRATCOM** ran the nuclear drill

-**FEMA** ran the tripod drills

-the **NRO** ran the plane crash drill

-and the “Able danger” was managing by the **DIA**

So I start to say : **that's the people who are behind 911.**

**Space warriors, STRATCOM, NORTHCOM, FEMA, DIA, there is your 911 coup faction.**

And how do they get their end game ?

1h 20min  
00s

**Weapon of Mass Destruction on american soil.** **Cheney** said it much. You know filled it already in 2005 on the August American Conservatives, and said Cheney is going to nuke Iran.

New way to get a **new 911 on American soil.** I predict, they will blame it on **Hezbollah**, said Iranian's terrorists did it, or they can blame on **Al-Qaeda**.

I think, the myth on **Al-Qaeda** has been shadowed enough, they will shift to Hezbollah. They could blame it on individuals named Adam John, fat white kid and said join up with Al-Qaeda,

and then they can say : you see it is white Al-Qaeda, your Christian neighbour is Al-Qaeda , your Jewish neighbour is Al-Qaeda, the guy on the street he can be Al-Qaeda. It is not just arabs anymore, it is not Persians, it is **white Al-Qaeda** among the Americans. They say : “blood is going to run out of your streets, we are going to get you”, it is the Johnny Walker principle, they want to make you think, that Al-Qaeda could be a white thing.

And that is going to be their justification, because they want to wrang you up in camps. You see, he is a white guy, he is a part of this too. It is a good way to do it, it is a strong psychological operation.

Remember, **STRATCOM** just ran **Global storm 07** in March, simulation of numerous world war III scenarios, US navy wargames and late March in the Persian Gulf has mark area attacks on Iran with bomb munitions.

1h 21min  
00s

In March, they ran **Juniper Cobra**, where these drills, where so big that they had to be scaled back, because they thought, they will provoke war, and they were not ready for it yet. That is down with the heroes and the patriots missiles system right on **Iran's** door step. Some big ones are coming up soon, hint of a vast conflict.

It was the **Foal Eagle** exercise in March, 29 000 US soldiers, lots of different aircraft carriers with South Korea. This war game was so realistic, that the **North Korea** pulled out their nuclear deal, that they were cutting. Why the talk collapses? That is why the deal collapses. These are real, that is not a game, that is real troops moving around, real preparation for war, and other countries know it.

**Operation Valiant Shield**, keep on eye after this one, late June, early July, 3 carrier group, 28 ships, 280 war planes and 22 000 troops, largest pacific drill ever in Guam. That right on China's doorstep. When **Rumsfeld** talks China is the big threat, we need to get China. **Guam** is the place, where they can do that.

There was a **Shanghai Cooperation Organisation** run in August, 9<sup>th</sup> to the 17<sup>th</sup> of 2007 “**peace mission 2007**”. They use the Orwellian language too, it was about 4000 troops, 500 types of weapons systems, biggest drill for the SCO.

1h 22min  
00s

**Ardent Sentry** and **Northern edge**, that one has get me freaked out, first 2 weeks of May.

They kept caught “realistic” terrorist scenarios in US and Canada, run by **NorthCom**, and 75 federal agencies, and the **TOPOFF07** drill in Oct 2007, large scale terror and Weapon of Mass Destruction attacks.

Russia and China are on the final endgame targets ?

**Rumsfeld** said so, **STRATCOM** said so.

They are building a **NATO missile “defense”** system on Romania and Poland, as a warning to Russia, as a provocation towards world war III. Here the articles from the **CFR Lieber** and press paper suggesting a successful first strike on Russia.

The neoliberals are pushing for direct confrontation, as all the neoliberals anyway.

**Putin** is saying US relations are worst than during the Cuban missile crisis. We have got the **Ivashov** warnings.

Really with just a couple of minutes, there are so much I wanted to get to.

Again that is all **related to the death of the \$**, and they are trying to get a **cashless society**, controlled running after the aftermath. Here you see people scanning with their fingers. That's the futur, electronic currency.

1h 23min  
00s

After the Amero, they want to push it to you, the head of Visa says by 2012 \$ is going gone. Everybody will pay with this little finger scan, eye scan. That is what is going on, credit cards are prognosticator of that.

Heu pay with your chip, **RFID**, that's RFID dust. There even, you can even not see that. This stuff has been embeded into the products. You see somebody, who is getting the verichip. Here you see somebody with the RFID passport putting into the product there, and the Philadelphia print chip and put that into the Warmer trucks.

### **Total information awareness**

They are expanding the databases, there are the Science Industrial complex, DARPA, the NSF (National Science Foundation), National Institutes of Health, the Rand Corporation, Information Exportation office in Defense and Science board working to create this global information grid, as they called it.

I don't even know, how I am going to finish this. I had so much I want to talk about. This is so important to talk about the way, they are using technology against us.

That is the head of DARPA, namely Tony Tether. You want to talk about who could help them in 911. Look at a guy like him, I will show you again a picture again, Tony Tether – DARPA.

The futur of human warfare, what I fear is we are saying :

1h 24min  
00s

**Nanotechnology, Robotics, and Artificial Intelligence, Genetic engineering, and Cognitive science.**

What they are trying to do is merge these things together.

This is the way they control humanity. They are taking the next generation of technology and trying to do, what they call the “**convergence**”.

Engineering at the atomic level, artificial intelligence, robotic warfare, engineering your food, engineering your plants, engineering your animals, chemistry, engineering your children, gene therapy, and studying you, the mass psychology. What the Tart's institute does, and studying how they can manipulate your brain with drugs and different other types of chemical warfare against you and your soul control.

Problems with GNRC, this can create an apocalypse. Bill Joy wrote about this : “Why the future doesn't need us”.

Again if I guess, we have got again 2 minutes, I will just have to rush through.

**Nanoself-replication** could really get out of control. The problem with all these weapon systems is this is bigger than the globe less. That is bigger than the globally you know. All these things can lead to an apocalypse.

There is a case in UT right here, somebody dropped a beak full of **avian flue**, which was genetically modified. It could have caused the apocalypse right there, that could have killed all of us. There was a **nuclear** dead nation last year in Texas, with a nuclear device, where they are trying to break it down.

1h 25min  
00s

It could happen accidentally. I mean, they don't have to engineer it you know and the direction is lead to a more control, and less person freedom.

That is the pain after conscience. They want you to think, that you are being watched, glass cell, the wall is in the middle and the light are off. They make you think you are **watched** all the time, and in many ways you are, not always, but that's the **fear**, that they induce to you.

They are trying to create the **global information grid**. This is Boeing, this is DARPA, this is Revolution and Military Affairs. And they say since 1993, we want to microchip you, we want brain

implants, link the satellites, automated warfare. This is from Boeing own website, ok, automated warfare. That is how they see you, a part of the global information grid.

They are talking about brain implants, DARPA brain machine interface and cyberkinetics, linking you to what they call literally, quote : “**eye mind system**”, type it into google. They are merging nanotechnologies, bio-technology and IT engineering the futur of everything. You see them coming together. You see the chip to the person's brain attached. You see on one of their documents.

1h 26min  
00s

**Artificial Intelligence** : linking the spy network together. They are trying to link all the cameras together, streets cameras everywhere and linking them together in an A eye system. So everything you do is tracked, traced, and recorded for that matter like **TBO**. They call it “Pentagon TBO”. Pentagone wants TBO for themselves.

You have got the **Echellon / Trailblazer / Groundbreaker**, that was an attempt to merge together the **NRO, NSA, and National GO** special Intelligence agencies. That is a real open common a lot of **secrets space weapon** researchs. Trying to merge them together with the Echellon program and the Trailblazer and the Groundbreaker, but didn't really work, from what I've read. But it's a sign of where they are trying to go : merging everything together.

**Genetic engineering** : that is Elite directed evolution. They are trying to tell you, what your children are going to look like, and also what's your food is going to be. That's how, they poison you.

**Futur soldiers** : live and robotic ; exoskeletons, they want the soldiers on drugs, and smart cloth, laser weapons, new helmets, that is not a scene from a videogame hero. That's from **Dagger** website on the right there.

**UAV** and robot tanks : they want to eliminate the human element of warfare, making some general at sitting behind their back's computer, who can organise this. That is a pre-dominant drum, you see the AI insect, this is the tank, the robot tanks being deployed in Irak. They AI launch you UAV on unmanned vehicle.

1h 27min  
05s

A lot of this relates to **trans-humanism**, guys like Craig **Curchwall**, who was at the **CFR**, and saying we are all going to merge with computers, you are going to download your conscientiousness, we are all going to merge onto the “eye mind”, and the wide mind technology, which obviously they want to keep it for themselves.

If they want to keep that for themselves, what do you get ?

You get **Eugenics** population control, which is **Malthusianism** on steroids. You see the major players, there **UN** population found well fare organisation, **Club of Rome** and **UNESCO**. It comes from Thomas **Malthus**, who sits at the bottom there. In 1968, Club of Rome were saying limit the growth, too many people, we have to wiped you all out. But they were right to predict things go wrong, for 40 years later, they still have the same agenda.

They are trying to do, that's why I have the **camistair** with the little beaker. Because remember this thing on UT, doesn't need to be on purpose, might be an accident. That thing dropps, you better hope that you have got an immune system.

They are talking about **Anti-matter weapons**, this is the **AirForce** and **DARPA**, openly in the San Francisco Guardian, talking about different weapons system.

I mean, they will have to take a hook to take me off, that is so important. Really you will have to grab me, I mean to, I just feel these stuffs are importants, because there are not getting talked about. You feel ok ?!

1h 28min 00s I mean, they are talking about 18 anti-matter weapons, do you know, that they are saying these things could destroy the universe, and in all the articles you know this stuff can be wiped out the overall universe, but they are going ahead with it.

**Space weapons system**, you know : **US Space Command**, **Los Alamos**, **NRO**, **NASA**, **STRATCOM**, **AirForce**. They are all directing along energy weapons. The neo-cons want new nuclear weapons in space.

1h 29min 00s Do we have some time ? 20 minutes ? I don't know, I will go as fast as I can. We will say 10 minutes – 2 more minutes ! With all due respect to you Dr Breed, I am trying to respect this crowd by telling how these people are going to get killed. So, that's how I am trying to respect them, so thank you very much, ok ? I am trying to tell everybody, what the real threat is, so I'm trying to be respectful to you, ok ? So let's me just go on, I will make it as fast as possible, ok, we are all going to die, How is about that is ? This short version ? We are all going to die, bye, bye, we screwed ! I mean come on.

1h 30min 00s

There is **weather control**, there are the **AirForce**, who is saying they want to control the weather by 2020. That's related to the **HAARP**, and chem trails system, worked this stuff up. I wouldn't talk about it, you know 10 minutes, I can't.

There is a next generation of technology, worth it ?  
We need to start asking ourselves : Is it something we want ? Shall we band genetic engineering ? Shall we band nanotech, can we ? Can we do it without an authoritarian regime ?

We need to begin to face these new technologies, beginning to deal with it. It is bigger than the global criminally. The technology itself has a life of control, we need to begin to think about these issues.

Who controls the future ?

The **shadow government**, **COG** : **NorthCom**. They are high line these people. I am just going to flash you some of their bases.

- That is **Mac Dill**, big 911 player. I will talk about these things.
- **Offut**, that's another still big player on 911 from **STRATCOM**. I am just showing you some of the bases, where the shadow government is located, right now. I will talk about that I am going to flash to be fast.
- There is a big one, they have just build, rumor it has been built at **Kings peak**, Utah, **office space command**.
- There is **NorthCom**, one of the big base, that's where the shadow government, **Cheyenne mountain**, **FEMA** shadow government. That's where, **Cheney** is a lot of the times.
- Of course, I've included **Area 51**, we are not supposed to talk about that. I am really interest about all, where their secret weapon research is being done.
- Also with **Dugway Proving Grounds**, that is what people are calling the new area 51. New secret research and testing being done on there.
- **AirForce** plant 42, that is **Lockheed Skunkwork works**, **Northrop**, **Boeing** Phantom works, where they have got their work done. I wanted to talk about these plants, I can't, cause of interest of time.

1h 31min 00s

But they are building a new generation of space systems, I mean these stuffs are so amazing, you start to talk about **UFOs** and stuffs, they are talking about that stuff. Boeing, since 1982 and now manifested so, we can see that there is a lag time. I think, they had these things for a long time. It is more **Northrop-Lockheed Martin** than Boeing basically. They want unmanned aerial vehicles, automated warfares.

---

-----

Who is engineering this ?

1h 32min  
00s

- The **mass psychology**, the Tavistock institute, MIT and SRI International, Stanford research institute. Those are the people, who work on how to mind controlling you. Doing also the big pharma cartel, the XANAX; the SRI is trying to get your children on ADD telling you, they need chemically to engineer you, and engineer your thoughts. The pharma cartel is waging a psychological war against the American people. They also are trying to pass new **freedom immunotiaves**, force psychological testing. That can breed your **nerves**.

- **Mass media** : the borg hive mind, 7 corporations control the news. They are spending billions in fake news casts, operation **Mockingbird**. Top executives are in the **CFR** and the **Bidelberg**.

- And **TV**, as Alex says : moves the brain activity from the neo-cortex to the limbic system. That's bad, because that's an emotional fight or flight response, whatever you're watching, you are getting brain-washed. You might think you see it into different levels, it is **brain-washing**. The flicker rate produces hypnotic state for you, that's the research originally from **RCA**.

The road to tyranny : **global tax** (via the carbon tax), national sales tax, real ID, when you pay for everything, every transaction monitored, debtor prisons, all personal credit can be wiped out with a single key stroke, eventually move toward implanted microchips.

1h 33min  
00s

**Global warming** is the back up plan. If you reject the war on terror, they have got global warming awaiting in the wings.  
That's how, they put global government, global tax. **Maurice Strong (Rockefeller)**, **Gore**, **Hagel**, I will talk more about that, but I can't.

**Reasons for hope :**

- the bureaucracy is really inefficient, that's can be hopeful.
- Trailblazer and Grounbreaker for the NSA are rumored to be failures.
- 90% are against implantable microchip
- 90% are against the SPP

But false flag terrorism is changing that.

I mean next one is going to be perfect !

They are not going to leave any things to chance, it will be like a movie script. Nothing left to chance.

**4<sup>th</sup> generation warfare**, impotent activism

**That is the solution part, I promised you, that's the most important part.**

So I am going to try to do fast flashing out, some advices from **MLK**. There is almost universal question for easy answers, and half big solution.

**“The ultimate tragedy is not the oppression and cruelty by bad people, but the silence over that by the good people”**

And he said : he accepts evil without protesting against it is really cooperating with it. So we all need to realize it is not enough to be a good person.

I am so sick and tired of people, who when come 911 up, and said : “I don't want to get acted, I just want to be a good person, I am just a good person, is that not enough ?” No that is not enough ! They are trying to kill you, ok, don't excuse it.

1h 34min  
00s

Don't let you look calm and dissident, make you think, it's ok, to sit around and doing nothing, no ! You are accomplice, you are a complice in a system of mass and murder genocide.

So am I ? I don't think, I am above this. I am trying to cast that a little bit. I am trying to fight back. I am putting myself above on the stage. I put my soul on the board, alright ?

You should do, join me, ok, everybody, out of here, I empower you. I have been among the crowd most of the times, just sit on the crowd, it's weird for me to be up here.

I want you guys to lead.

I want you to speak up on stage.

Don't wait for me or Alex, or Jack or anyone to talk, and come to save you. I am not coming to save you, I am not superman, I am not a natural leader. I am not going to tell you what to do.

Research it yourself, and come to it lonely.

I want to see you guys on stage, next time, there is a conference, I want you and you and you, right on the speech, make a powerpoint.

This movement shouldn't be run from the top – down,

Let me tell you something :

**Risks for 911 “truthers”** : I am coming to the A risks :

1h 35min  
00s

– we could become an **insular cult**

We don't want that to happen (like AA meeting, or Star Trek convention)

–we **don't want expected heroes** to lead the “movement” to “victory”, nononono.

There is no vanguards, that's what the left does. I am not your vanguard. I am not your **Noam Chomsky**.

Save yourself, you come up on stage next time.

–**a lack of social interaction and networking.**

I monger that, we are not talking to each others at these conferences, we come, we watch the guy speaks and we leave, we need **xxx**, we need to talk each others. The Left does that well, we are not organised enough. We don't want to act overly like abrasive religious zealots with “recruitment” to “waking up” to the truth. That's door-knockers.

–We need to **start to marketing** ourselves

Don't say : “I wake up, and you need to wake up too.” You are selling that, like a religious fanatical, and people just step away, waah I am going to drink at the calice.

Take a slow, I am speaking fast, but take it slow, slowdown for people, ok ?

–We could fall in the **JFK assassination stuff with infighting, egos, backstabbing, FBI agents**, and diminishing numbers at conferences

–There is another problem : **racial and gender homogeneity**

The white male problem : I believe, every speakers on this stage has been a white male, and that doesn't mean it is bad. I don't want to see the fake people, and saying oh diversify is good for the sake of that.

I think we need **out reaches**, toward the working class, toward suburban areas, Spanish speakers, we need to get the people, who are getting most screwed by the present industrial

1h 36min  
00s

complex, by the basic economy tyranny on this country, and that does speak to the national minorities.

-There is a **single issue focus**

We loose track of everything else, saying 911, 911, 911. We need to talk about global poverty, futur technology, and economic breakdown

-We are **ignoring the real shadow government**

-And there is **too much fear !**

You'd better be afraid, but don't let it paralyse you, when we are speaking about solutions. Jack **xxxx** does that a lot, let's talk about local positive formulas. Thing like fluorid eradication in your town, go on net, that's what you can do, that's substantive.

Come to the end here, **different types of activism** :

you'd like that ? What ? Did you like that ? Alright, cool.

- This is **Noam Chomsky**, that is the old version of the how a social man activist. I am talking about somebody in the crowd. Chomsky comes and says : “**Bildelberg** doesn't exist, **CFR** is nothing, no false flag terrorism, 911 not an inside job”.

1h 37min  
00s And that is how, they are doing it, they control you with outdated leaders, and left gatekeepers.

Who funds them ?

**Schumann fund, Rockefeller council, Soros, Mac Arthur.**

We need to begin to look at, who funds these left gatekeepers, who for, basically since the 60s, which have managed social activism in this country telling you, there is no false flag terrorism.

World government, world government, world government, world government, world government, world tax, UN tax, UN population, we need UN population control.

I mean these guys are crazy, and all these people, who do you think the nation and **X** and **X**, and Chomsky, and all these people are not talking about 911, that is not a coincidence.

- **Week end activism**, this is a problem.

People go after the protest, once a month, and think oh I ve done something. No you even didn't read the signs. Make you feel good about yourself, feel jacked up. Nothing get done. You could have 10 millions people go, and ministers will say 10 000 people march, found them in the protest.

1h 38min  
00s

- That's **Jeri-Curl activism** as I call it.

You have got the Milquetoast activism, candle light vigils and other “pacifist” death-ends “handle the candle for the soldiers. Yes they are going to murder you, ok ?, you handle the candle, they hold the gun”, see who wins !

- **Parrot activism** : that is mindless sloganeering

“No blood for oil”, “No blood for oil”. Give me a break. You know, this stuff is just ridiculous.

We need to talk to people to the real level. You think, I can put this in our slogan. Treat people with some respect, ok ? The population has been dumbed down, people are really ignored right now. Treat them with some respect, they can step up to the plate, treat them like a **dulls** and they will come to you. You don't have to dumb it down for everybody with

this slogan arrogance. It's overly simplistic, it's a shame.

- You've got **Trantrum activists**

That is the phony anarchists, hopeless communists, FBI provocateurs, and felony violence persons, these persons are completely out of ideas, smashing the windows, and start about : he doesn't know, why he is angry, and he doesn't know, what to do. And he thinks, he is doing a revolution, as a little black mask ski, looks like the police state guy himself.

- That is **molotov cocktail activism**

group The fast road to a Grand Jury. Hooh, we 'd throw out the molotov at a FBI agency. My tells me to get violent. Ok, that will get you to the Grand Jury. Look what did happen to the animal right group, and I think, that nothing is run by FBI agents.

- **Jeri-Curl activism**

World can't wait, and the answer coalition, that is star red front group, who controls the anti-war movement. We are going to march, we are going to take the streets. And nothing is going to get down, and they won't talk about 911, that's the big part. They are actually trying to kick 911 people out of the protests.

→ We need to **market ourselves**. Jack xxxx talked about this, try Federal Reserve, imminent domein, take an issue. I mean, sometimes people are interested by different things. **Don't get to 911, don't worry, they will get there.** The raven all have got different entrees points, and get you to the same point. Market ourselves.

Don't be harsh on people especially with tough lessons : “when I wake up, I wanted to tell everyone, I wanted to say, it's 911, it's..., they topple all these things...” And people said : “dude, I am not going to take you to my party anymore, can we not have this guy anymore ? Can we make sure, he doesn't hang off your friends with this guy”.

→ **Calm it down, give people a break**

Jack xxxx says : don't be a brother's key, don't be too harsh on people. Everybody is flawed. I 'm so deeply flawed, you will not believe it. We are all imperfects. I 'm not trying to get up, and tell you I am the Grand leader, man I ve got a lot of flaws.

So market ourselves, we are not better than other people, because we know about this!

You happened to research one issue, and you are not better than anyone, help them, don't think that you feel superior.

→ **Cell activism**

This is the good thing, that others and I do. The power of an individual and a good sign. You know “Bush engineered 911”, hanging up the one person, we need to learn from the “end is near” crowd. One person and a sign, that's activism, keep it small, keep it local.

→ **Fourth generation truth squads,**

That is the concept talked a lot about. Congratulation to Webbs to talk to, that's a brilliant idea. Go to New Hampshire, hire a van, and confront with our documents of war. That's 911 commission, next to him, you see a pin up guy underneath there, I think, that's Matt there. Gipsy talk, these people are heroes.

→ This is the **next generation of activism**, they are fighting for a generation warfare against us. That is the 4<sup>th</sup> generation, advanced activism : DVDs, pamphlets and **cheap technology**. One person on the street, and handle that, we don't need a group, no van guard. Don't get orders from me, you could do it, it's cheap, it's easy, it's effective.

1h 39min  
00s

1h 40min  
00s

→ **Freeway blogging**

You can hang up signs, be a freeway blogger, great, right !

You effect 10 000 people, who drived by the signs, this is efficient activism. That is, when you are starting to use new technologies for yourselves.

→ **Blogs**

Join us, we have got blogs. I've got mine, infowars, 911 blogger, whatreallyhappened.com. That is some of the ones, I visit.

Join and start articles, we need some people to start join in.

Not just wait for polls, or someone to tell you, what is the real truth is.

Go right to yourself, we need more writers, we need more thinkers, you obviously are thinkers. You have in yourself, don't think you are nothing, that is what they tell you, you are nothing, you are scum, can affect change and the change is in your own head.

→ I say : **untapped activism : the power of the urinal**

I want to put 911 truth stickers, above urinals. I am serious, we need to help people, and in a lot of different ways, help them creatively, think outside the box here.

→ I just want to tell you, and that's the last slide **prepare for the worst**

I am trying to be positif, but people talk about when we win, I swear we are coming to the end. When we win, when we win, prepare water, stored food, gasoline, generator, batteries, passports, gold, safe houses, have a plan !

Because it may get bad, this nuclear stuff is not a joke, people say : when we win, when we win, we might or might not, so prepare ok ?

→ Last thing : that is my own deal. I am not a new age freak, but I am saying, there is a **spiritual all** for human.

The reason, I put spiritual all : GM food is a war on your **chakras**.

It is a war on your soul eye. It is a war on your holographic soul.

I am encouraging people, it is not a new age bang, to look at the things, like **yoga**, and **meditation**, and **acupuncture**.

That is, how you get your **third eye spinning**, you know.

That is a war on you soul, on your spiritual connection.

That's your **pineal gland**, where is your warning. You need to look into these things, it is not new age. I mean a lot of this is, but crazy people, a lot of this isn't.

There is real sign behind this.

→ And last thing here : **subtle eugenics**

Clean up your body and mind. The GM food lead to tumors. You've got GM soy, corn, rice, tomatoes, the prodigene HIV corn, the Fluoride. MTBE is suppressing your pineal gland, and disrupting the spiritual side of man.

Pesticides lead to cancer and hormone disruption, so called "gender bending".

Clean up your food folks, look after this stuff. Look up into the ingredients, do some research. Meat, milk have meat growth hormones, and mad cow disease CJD.

You need to build up your immunity and purge toxins with right supplements.

→ **Throw out the TV**

Because it is mind control you

→ And above all, **fight back, just get active please.**

This is my last slide, I am just telling you guys : it is not enough to know anymore, nor it was in 2002, 2003, 2004, 2005 and even 2006, it is not enough anymore. You can't just go on the present, and say I read the articles today, I am a truth heroe. Because you talk your friends and you read

1h 41min  
00s

1h 42min  
00s

1h 43min  
00s

some articles about Iran, no !

→ **Get out, warn people**

The end is near, unless we stop it. Those people “ the end is near” for a millenium, people have said “the end is near, we are all going to die, the apocalypse”.

People have always said that. Yeah, this time is real. Nanotech could kill us, genetic engineering, anti-matter weapons, **HAARP** system, these are real war tools, and you could all die.

The gun is to your head, the key is fight back !

It is not enough to know, it is enough to **get active** !

I thank you all for giving me the time,

I hope I was **respectful**.

[clapping].

1h 44min  
00s

The end.

Notes :
